# MI Vacc to Normal Challenge

WE ARE HERE

## 48.8% VACCINATED

as of April 29, 2021

Michigan residents (16+) who have received their first dose of a COVID-19 vaccination.

## STEP 1†

**55%**
PLUS 14 DAYS

- Lift the state's requirement for employers to require remote work when feasible.

## STEP 2‡

**60%**
PLUS 14 DAYS

- Increase indoor capacity at sports stadiums to 25%.
- Increase indoor capacity at conference centers/ banquet halls/funeral homes to 25%.
- Increase capacity at exercise facilities and gyms to 50%.
- Lift the curfew on restaurants and bars.

## STEP 3‡

**65%**
PLUS 14 DAYS

- Lift all indoor percentage capacity limits, requiring only social distancing between parties (e.g., lifting 100-person cap on restaurants and 300-person cap on other facilities).
- Relax current limits on residential social gatherings.

## STEP 4

**70%**
PLUS 14 DAYS

- Lift the Gatherings and Face Mask Order. No longer impose broad mitigation measures during this pandemic, unless the virus threatens to overwhelm the medical system, or other unanticipated circumstances arise, such as the spread of vaccine-resistant variants.

**+70%**

Keep vaccinating eligible Michiganders to save lives and end the pandemic.

MDHHS
Michigan Department of Health & Human Services

† MIOSHA may delay implementation if new cases remain >250 daily/million as a seven-day average at the time of implementation.

‡ MDHHS may delay implementation in a MERC region if new cases remain >250 daily/million as a seven-day average at the time of implementation.
