May 26, 2022

Dear CAPCSD Members:

Greetings! I hope this message finds you well. Hopefully you have enjoyed a moment of down time with family and friends after wrapping up your spring semesters and are now energized to start your summer! I want to take this opportunity to highlight just a few of our activities as CAPCSD continues to offer support for your programs.

2022 Annual Conference, Portland - Dedicated to Community: Making Connections Matter

This year's Annual Conference in Portland was a huge success! It was a pleasure to connect again in person with a group of almost 500 Speech pathologists and Audiologists as we shared success stories from the past few years as well as discussed the challenges that currently face our profession. We look forward to continuing the conversations next year at the conference in Orlando.

Essential Functions Task Force

The task force is actively engaged in reviewing and revising CAPCSD's existing documents regarding essential functions for audiology and speech-language pathology students. Suggested revisions to the essential functions document and supporting guidelines regarding its appropriate use will be brought to the board for review and shared with membership when approved.

Strategic Plan

The new strategic plan went into effect this academic year with a focus on improving member value and growth, performance excellence, and diversity, equity and inclusion. We have begun increasing our virtual presence, diversifying our revenue, examining the return of investment of our scholarship and training programs, and building awareness of DEI into our culture. We have already achieved several of our goals, and will continue to work toward completion of the plan.
