

An Open Letter from the Metropolitan Water District of Southern California and Your Water Providers

To the communities we serve,

These are difficult times, carrying great uncertainty and many challenges. However the Metropolitan Water District of Southern California and its 26 member public agencies continue to deliver safe, high-quality and reliable water supplies to homes and businesses, just as we have done for nearly a century.

Tap water is safe.

Our water agencies use state-of-the-art, advanced treatment processes that remove and kill viruses, including coronaviruses, as well as bacteria and other pathogens.

**THE METROPOLITAN WATER DISTRICT
OF SOUTHERN CALIFORNIA**

mwdh2o.com

There is plenty of water.

Southern California has an extensive distribution, storage and treatment system to ensure continued deliveries even during a disruption. And, our reservoirs are at some of the highest levels ever.

Water deliveries are reliable.

Agencies are taking steps to protect the health and safety of our workforce. Our laboratories, treatment plants and facilities continue to be staffed by skilled and dedicated men and women who provide the vital services that keep our systems running.

Metropolitan and your local water agencies are working together, combining our vast resources and talents, to maintain critical services to the communities we serve.

Sincerely,

Gloria Gray

Gloria D. Gray, Chairwoman
