Lansing City Council members,

This letter is a formal indication of support from the Lansing Regional Chamber of Commerce (LRCC) for Brownfield Plan #81 as part of the proposed Neogen expansion project.

Founded in 1982, Neogen's global headquarters are located in Lansing. We have seen Neogen grow in the city throughout the years, leading to their impressive global reach with a presence in 140 countries. This proposed project has a total investment of \$70 million, will create 60 to 100 new jobs and extend to 2024. The total number of employees in the Lansing area will go from 650 to 750.

The LRCC has been a strong leader in advocating for economic development and growth throughout the city and region. This project aligns with the LRCC's policy priority regarding economic development and job creation, and we encourage Lansing City Council to continue to be proactive and capitalize on the opportunity to support the continued expansion of Neogen.

If you have any questions, please feel free to contact me at any time.

Sincerely,

Tim Daman
