Dear Director Martinez Semerena,

The Lansing Regional Chamber of Commerce supports the Lansing Regional Sister Cities Commission and the City of Merida, establishing a Friendship City relationship.

The goal would be to promote peace and friendship; encourage visits by the citizens of both cities; establish affiliations between business, schools, and organizations; create educational exchange programs; and promote cultural exchanges. In addition, we would like to see these Sister Cities establish and develop a mutual understanding among the citizens by exchanging various information and materials to grow an economic community.

The Chamber looks forward to this opportunity to connect and grow with the city of Merida.

Sincerely,

Tim Daman
President & CEO
