Letter From the CEO

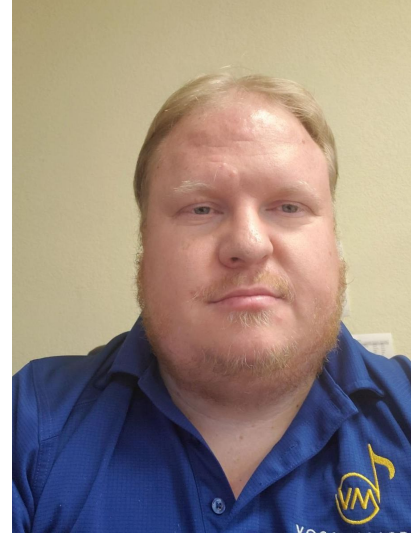

The last month has been difficult for many of us. Our new normal for many was to walk across the house to our "home-office" and start working. For those who stayed open, in many cases your business was very different from your normal operations, and it took hard work to reinvent how you do business. For some of us, such as our healthcare workers and our grocery store workers, things are moving so fast, you are just trying to stay ahead. To each and every one of you, words cannot express the appreciation that our entire community has for you. You have shown everyone why our community is so strong, and what makes our businesses so special. I am in awe how many of you took this pandemic, and found ways to rise above. Thank you for all you do for our community.

As we are looking into the future, we are all yearning for the possibility of reopening and getting back to our normal routine. While this is the goal for most of us, we do need to be careful in doing so. I feel that if things were to repeat, and we had to "shelter in place" again, it would be devastating to our community. We need to keep the spread down, make sure we avoid a resurgence. That may mean that masks become a regular part of life. That may mean we have to wait to get a haircut (I REALLY need a haircut, badly!). Whatever that may be, I encourage all of you to do your part. It's will be tough, there is no question about it. But we all need to do our part. We do not want this to happen again!

I can't wait to see you all, and continue working for our great community!
