NEW CHAMBER MEMBERS

PMI

PMI began in 1991, when founder Jeff McAlmond realized a need in the region for a high-quality and responsive construction company specializing in the areas of sanitary piping, custom fabrication, welding expertise and process equipment installation. What began as a one man, one truck, and a 1,200 square foot shop evolved into what is today a highly diversified yet specialized company offering significant manpower and equipment resources. Over the years, PMI has made investments in not only construction equipment and fabrication facilities but also in its people, to grow into a well-known contractor in the industrial, food & beverage, pharmaceutical, and chemical sectors across the country. We have highly experienced and diversified backgrounds at all levels allowing us to maximize our services for our clients.
