

LOWER your emissions & SAVE MONEY with Community Solar!

Our energy partner **Energy Now Consultants, LLC** is excited to present a new opportunity for **businesses** and **residences** to use clean energy AND save money. **Community Solar** is a new clean energy program through the company **Common Energy**. This program enables you to lower emissions in your community and to save money on your bill every month.

Common Energy works with official NYS programs that support clean energy and offer **guaranteed** savings. They are registered with NY, MD, IL, MA, ME & MN State Public Commissions as an official Community Solar provider.

- 1) Sign up with Common Energy for **free**.
- 2) Common Energy connects your account to a local solar project.
- 3) You receive clean energy credits on your electric bill.
- 4) You **save 10% every month**.

There is **NO** cancellation fee and **NO** contract. By signing up you make a positive impact for your community by lowering pollution, supporting local clean energy and local jobs.

- Instead of paying your utility company (National Grid), you pay Common Energy and they pay National Grid on your behalf.
- Common Energy will email a "Statement of Savings" every month that shows your savings.

Community Solar Farms:

- ✓ Are installed on a rooftop or in a field
- ✓ Connect directly to the electrical grid
- ✓ Clean energy from the project replaces fossil fuel generation, lowering pollution in our community
- ✓ There is NOTHING for you to install - the process to enroll is 100% digital
- ✓ Anyone with an electricity account (including renters) can sign up and save money

SIGN UP

****You will need your National Grid login information. Transition takes about 1-2 billing cycles after signing up. Common Energy uses Advanced Encryption Standard (AES) algorithm; your information is protected. Common Energy does not have access to your bank information once entered, the information is only needed to connect your bank account to the utility to pay your bill on your behalf. National Grid also has encrypted all information except your electric meter/account number when Common Energy receives your account number.****
