PARTNERS IN TRUST

A UNIFIED VOICE FOR BUSINESS

There has never been a more consequential time for business and the economy. And when businesses share ideas, intentionally partner, and seek common goals for a brighter future, the Chamber is here to foster the environment to forge those relationships. Our Partners in Trust represent that spirit of corporate cooperation and shared vision.

Our regional business community is ready for substantial progress in areas like workforce development, infrastructure, innovation, talent recruitment and community branding. We can accelerate toward our shared goals by working together and aligning shared concerns among stakeholders, including large employers, small business owners, nonprofit partners, major institutions and local government.

Chamber members who invest in the Partners in Trust program amplify the Chamber's work to connect, convene and collaborate for a stronger business community. Our Partners in Trust also form a leadership circle whose influence and ideas help to shape a unified regional business agenda.

The Partners in Trust program welcomes organizations of all sizes and sectors including private, public and nonprofit. With considerable marketing visibility through multiple avenues, Partners in Trust position themselves at the forefront of the business community.

Program benefits include:

- ✓ Frequent recognition across Chamber communication channels including newsletters, website, social media, press releases and advertisements
- ✓ Partners-only events with other C-level business leaders representing many sectors
- ✓ Acknowledgement at Chamber events
- ✓ Complimentary admission for select Chamber events

New partners may enroll at any time, and we invite you to consider the possibilities of becoming a Partner in Trust.
