Credit Union in Pensacola, FL Holds Financial Literacy Seminars for Local College Sports Team

The financial institution strives to further support their community in times of uncertainty.

Pensacola, Fla. – On October 7th and 14th, 2020, Central Credit Union of Florida provided financial literacy seminars for the Pensacola State College Women’s Softball team to educate those in attendance on creating budgets and understanding credit. The program, titled “Building a Basic Budget and Understanding Credit” is just another way in which the local credit union is giving back to society. The event was held on campus at Pensacola State College, free of charge, and provided expert information on how to manage one’s personal assets.

Young adults seeking independence have the most to learn about finances, and the global pandemic has definitely increased the complexity of how to be fiscally secure. Knowing this, the Credit Union, already being a member of the PSC Booster Club, felt it was necessary and well-timed to work with student-athletes and help foster their fiscal skills. The participants also demonstrated their appreciation, as posted on the PSC Women’s Softball team’s social media profile,

“Softball is fun and what we do but [we’ve got to] learn those life skills to look towards our future.”

Providing educational forums is part of the Credit Union’s commitment to the community as they continually receive feedback indicating that there is a gap in financial literacy amongst the general public. In addition to providing live sessions, the Credit Union has also dedicated an entire section of their website called “E-Learning” that supplies a multitude of information ranging from the basics of key financial concepts to buying a home or preparing for retirement. Regardless of what stage of life someone is in, Central Credit Union of Florida provides knowledge and financial opportunities that last a lifetime.
