PROHEALTH ANNOUNCES NEW MEDICAL CLINIC IN PENSACOLA

April 12, 2021

Pensacola, Florida – Danette Krumel, President of ProHealth, announces a new medical clinic will open in Pensacola on Monday, April 19. ProHealth will relocate its clinic from inside the Everwell Pharmacy on Davis Highway to the newly built, First City Health facility. It is at 6005 College Parkway, next to the Sam’s Club gas station and across from Booker T. Washington High School. The new ProHealth Medical Clinic will be open Monday – Friday from 8 AM to 4 PM and Saturday 8 AM to 12 PM.

The move stems from ProHealth’s growth over the past few years and will benefit ProHealth patients and members by offering a larger clinic, allowing for more services with the same distinguished medical staff.

ProHealth’s President, Danette Krumel, comments, “Our medical clinic teams have worked diligently to improve the health of thousands in our community for over a decade. We aim to always save our patient’s time and money. We know how important it is for people to have access to quality medical care when they need it. Now, we have the space to better accommodate all patient needs.”

In honor of the move, ProHealth is offering free vitamin B12 energy shots (\$20 value) with every purchase, as well as a \$20 discount on all new patient office visits. This offer will end April 30th.

ProHealth shares the building with other health and wellness experts, such as First City Drugs Pharmacy and Natural Healing Massage. On Facebook and Instagram, ProHealth (@ProHealthFL) is giving away two Yeti coolers filled with items from First City Drugs, complimentary Natural Healing massages, and more. The contest will run April 26-May 1. To enter, visit ProHealth’s Facebook and Instagram: @ProHealthFL.

ProHealth was founded in 1985 and provides affordable primary, preventative, and semi/non-emergent medical care, as well as occupational health services, affordable lab work, COVID-19 testing and much more at nine locations spanning Northwest Florida. Whether patients are uninsured, underinsured, or have a high deductible, ProHealth makes healthcare more affordable and convenient. For more information, visit ProHealthFL.com or call 850-434-6168.
