## **APPLE MARKET GIVES BACK TO LOCAL MEDICAL STAFF**

August 26, 2021

**Pensacola, FL** – David Apple, owner of Apple Market, catered a free lunch for the ProHealth's Medical Staff on Thursday, August 26 as a thank-you for their hard work. Escambia County is in the middle of a COVID-19 spike and medical staff has been working tirelessly.

Owner, Danette Krugel, expressed gratitude, stating "As a locally owned business ourselves, we really appreciate Apple Market going out of their way to show kindness and support to our staff. It brought our hard-working team smiles and fuel for the rest of the day. In a time riddled with fear and much controversy, we can all learn from Apple Market's random acts of kindness."

Apple Market catering menu includes breakfasts, box lunches, light and heavy hors d'oeuvres, gorgeous gourmet platters as well as full meals with salads, entrees, sides, and desserts. The local grocery store can cater to 15-200.

Apple Market was founded in 1996, when a corporate grocery career man, David Apple, bought Joseph's IGA from its original owner. They have served our neighborhood and the larger community for over 23 years with an award-winning butcher shop, produce department, deli, and catering operations. Their customers call them the "Biggest Little Store in Town." For more information, visit [applemarketpensacola.com](http://applemarketpensacola.com) or call (850) 433-4381.
