

*Leisa Cook Churchill RN, CHPN*

***Founder and Director: L&L Executive Adult Daycare, LLC***

Leisa knew from a young age that she would devote her life to caring for others. She has had a 34-year nursing career that began as a cardiac intensive care nurse, later moving toward home health and hospice. The last 20 years was solely dedicated to the end of life care in Hospice. Her hospice career included direct patient care and then moved into corporate leadership roles ranging from Regional Quality and Clinical Director to Vice President of Clinical and Operations. Leisa has a true passion and love for hospice but also had a dream of one day establishing an adult daycare program. This would be a daycare center where our aging community could come to a “home away from home”. A place where they would feel and know that their value and worth does not end with advanced aging. To provide a place where the mind, body and soul would be replenished daily. It is considered a true blessing to make this dream a reality.

Leisa is originally from Alabama and now resides in Pensacola Florida with her husband, Alvord B. Churchill III. Together they share a profound love for their church and serving others and enjoy the “piece of paradise” we call home here in Pensacola. Leisa enjoys walks along the National Seashore, music, vacation cruises, trips to the mountains, and hosting pool and football tailgate parties for friends and family.
