Date: June 5, 2023

Constituent Work Day

The office of Florida Representative Michelle Salzman, in partnership with staff from U.S. Senator Rick Scott, U.S. Senator Marco Rubio, Commissioner Jeff Bergosh, Tax Collector, and the Veterans Affairs team will host in-person Mobile Office Hours to assist constituents with State and Federal casework issues.

These office hours offer constituents who do not live close to one of the district offices a more convenient way to receive State and Federal casework assistance. This will also be an opportunity for interaction with our Beulah constituents and address any of their casework concerns. The Escambia County Tax Collector's office will be on site with their new mobile ID card program. We also have the Veteran's Affairs team attending with a variety of resources that will be available on site. Representative Salzman said, "My collaborative relationship with our elected officers at all levels of government has been extremely beneficial to our constituents. We work very closely together and we have hosted this "one stop shop" in an effort to ensure whatever issues our constituents face can be addressed."

Those interested in attending may contact the Media Coordinator (information below).
