Education Expert Dr. Angela Bush Speaks at CivicCon

FOR IMMEDIATE RELEASE-----

CivicCon is excited to invite the public to a free presentation by Dr. Angela Bush on Thursday, April 11, from 6 - 7:30 p.m. at the REX Theatre in downtown Pensacola.

In her previous role as principal of Erwin Middle School in Birmingham, AL, Dr. Bush made notable strides to move the school from a low-performing school to a model high-performing educational institution in the city, county and state. Dr. Bush and her team improved chronic absenteeism, test scores, teacher morale and forged stronger connections between the school and the local community.

Under her leadership, Erwin Middle School received its first passing score on the Alabama State School Report Card in 2022-2023, and US News ranked the school in the top 5 middle schools in the county. Attendees will learn how Dr. Bush and her team were able to achieve this transformation.

Dr. Bush was promoted to serve as Area Director for Jefferson County Schools in Alabama, where she works with staff at 15 additional schools to implement best practices that will lead to school improvement.

This event is free and open to the public. Guests can attend in person or watch the livestream on the PNJ Facebook page.
