Please answer the following questions in writing:

1. If elected to represent Arizona, what are your top three priorities in office?

We must restore law and order in this state. That means securing our border, cutting off the flow of illicit drugs into our communities, and taking violent criminals off our streets.

Our state's economy is on the edge of being in dire straights due to skyrocketing inflation caused by Democrats. The solution to fix this isn't printing trillions of new dollars. People can't afford rent, groceries, or life-saving medicines; redefining the term 'recession' doesn't fix anything. We need to stop the crazy left-wing spending spree and get back to what made our country great: freedom and innovation.

Big Tech is an existential threat to America. These companies continue to abuse Americans' privacy and data. I understand the Big Tech threat better than any other candidate. We must tackle this issue head-on and make sure Big Tech is not allowed to censor or discriminate against you based on your political views.

2. If endorsed by the Chandler Chamber, what does your engagement plan look like with the Chamber and Arizona businesses following the election?

I will listen to the concerns of the business community and its leaders to address their problems appropriately. I will be a helping hand in Washington for Arizona's business community, and a voice in the Senate for the issues that matter to Arizonans. Furthermore, my office will hold monthly meetings with business leaders to learn how we can be a valuable partner at the federal level. There will be a constant line of communication between my office and the business community.

3. What is the role of bipartisanship and how does it affect your objectives?

Bipartisanship is important. It plays a vital role when passing major legislation. On infrastructure, drug costs, Big Tech, energy independence, Arizona's natural resources, and other big issues like these, I will look to work with my colleagues on the Republican side, as well as work across the aisle, so that we can pass commonsense legislation that benefits all Arizonans. You can't pass major reforms without some help, which is why I look forward to working with Senator Sinema, Senator Manchin, and other Senate Democrats whenever possible.
