DECATUR REGIONAL
CHAMBER OF COMMERCE

BUSINESS INVESTOR

The first few years in business can be some of the hardest. Your chamber membership puts several resources at your fingertips, connects you with the business community, and supports you as you invest in your new business.

BUSINESS BUILDER

After you've established your business, you start building upon the relationships you've made. Your reputation in the community grows and you can focus on other areas of business needed to sustain a profitable company.

BUSINESS INNOVATOR

Larger companies, businesses with several locations, and those well established in the community tend to focus on new technologies and innovative ways to streamline or enhance business practices.

REGIONAL DEVELOPER

Growing beyond your original storefront is a visible reminder of business success. Expansion, investment, and support of smaller communities prove strength in business.

REGIONAL PARTNER

While you understand the ins and outs of business, your partnership with organizations are important to the vitality of your community. Regional partnerships are the backbone to which not only the community, but small businesses succeed.

LEGACY LEADER

Legacy is a representation of your body of work. A business's contribution to growth, innovation and opportunity extends beyond the workplace. Sustainable impact and influence on our community defines our legacy leaders.
