

What is Leadership Monadnock?

Leadership Monadnock is an annual professional development program and the cornerstone of the Chamber's commitment to develop community leaders for the 21st century.

Participants are emerging leaders who will engage with others in the community to bring diversity and vitality and learn about the challenges and opportunities of the Monadnock region and to our state. The ideas, strategies, and contributions of Leadership Monadnock graduates shape the future of our region and enhance the quality of life in our unique part of New Hampshire.

The program, founded in 1997, has graduated nearly 400 participants from the public, private, and non-profit sectors of our region.

Mission

Leadership Monadnock promotes the development of emerging community leaders by:

- Exploring regional issues
- Fostering involvement
- Encouraging action and commitment
- Challenging each participant's overall perspective

What previous participants say about Leadership Monadnock...

"Leadership Monadnock provided an extremely interactive forum within which I met leaders from social, cultural, political, environmental and educational organizations throughout the region. We participated in dialogue around the challenges and opportunities they face every day. I also learned much from the experience and perspectives of the rest of our 2017-18 cohort. This was a great way to open doors and opportunities for engaging in program and policy work at the local and regional level." ~Nancy DuBosque, Small Business Development Center, LM Class of 2018

"Leadership Monadnock opened my eyes to what the community has to offer and showed me how to get involved. It was a pivotal educational experience at the start of my career for the City of Keene. I recommend this program to anyone who wants to learn more about our area, expand their network and get involved in our community." ~Meghan Spaulding, City of Keene, LM Class of 2014

"As someone who was new to working and living in Keene and the region, Leadership Monadnock was crucial in providing me with the necessary background of the area, and a thorough introduction into the issues that are facing the region. The facilitator fostered an environment of sharing and inclusion, and the guest speakers continuously proved why they were considered experts in their related fields." ~Eric V. Weisenberger, The Colonial Theatre, LM Class of 2013
