GREATER KEENE &
PETERBOROUGH
CHAMBER

The Chamber is thrilled to announce the launch of the Monadnock Region Brand!

It's been two years since the Greater Keene and Peterborough Chamber was established to serve the entire Monadnock Region. From the outset, the Board recognized the need for a regional brand and marketing campaign that must be substantial enough to have an impact, and it must be sustainable for years.

In 2021, Cheshire County applied for CARES Act funds on behalf of the Chamber to launch the initiative. The US Economic Development Administration awarded a grant of \$300,000, matched by contributions of \$100,000 from local businesses, organizations, and municipalities.

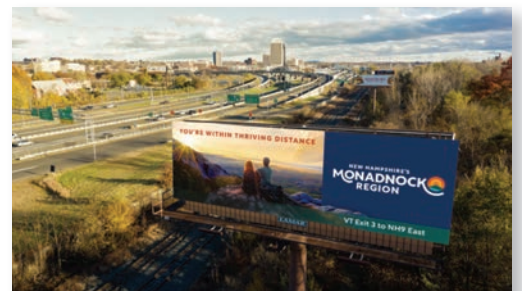

The funds allowed the chamber to hire a project manager (Julie Schoelzel) and engaged North Star, a place branding agency, to help establish the brand for the region. North Star conducted extensive research in the region and outside it to inform its recommendations and this past September delivered the brand and a corresponding marketing plan.

The brand allows us to project a consistent, focused message and enables the public and private sector to market the Region in a cohesive and consistent manner. It represents the attributes of the Monadnock Region that, taken as a whole, describe a place and a people that are unique and a strategy that is distinct.

The Brand has been shared with major stakeholders and the response has been overwhelmingly positive. As PTR Chair Jamie Trowbridge likes to say, we're at mile 2 of this marathon. Currently the chamber is building a library of top-quality photography and video that can be used for promotional purposes. And it has engaged Communicators Group to build a destination marketing website for the region that will be ready by January and followed by a paid marketing campaign using a variety of media.

Regional Brands are not created, they are discovered within the spirit of a place – from the history, the attractions, the culture, the geography, and the society. How do we maintain the character and vitality of the region for the next 30 years? We celebrate it, both here at home and with greater New England, encouraging our young people to establish roots and enticing those just beyond to visit, learn, work, and thrive here.

We'd love to share the Monadnock Region brand and our plans for the future with your teams. If you would like someone from the Chamber or the PTR committee to present, email Julie Schoelzel at jschoelzel@keenechamber.com. You can also find more information at www.monadnocknh.com.

Are Your Marketing Efforts Turning Into Sales?

I'm sure you are doing all the right things to promote your business. You probably use business cards, websites, social media, networking, advertising & more.

Just imagine if you took all this effort (and expense) and used one method that puts your logo or photo right on someone's

phone or computer home screen. You would be at their fingertips 24 /7, one "touch" away from generating business or receiving a referral!

How would you feel if this time next year, you were on 100, 500 or 1,000 home screens of existing and potential clients?

All those people seeing your logo or photo every time they looked at the home screen of their phone or computer. Providing them with instant access to contact you, see updated inventory, learn about new products or services you offer, make a purchase... all with the push of a button from their home screen.

Now, imagine all of those people EASILY referring you to friends, family and colleagues in a text, email, QR Code scan or across social media. If you're like me, you like to work with and refer businesses who make life easier.

GOOD NEWS! The technology to do all of this is affordable, customizable, easy to use and ready to be put to work, for you and your business, right now. And there are no apps to download!

Sound Interesting? Just scan this QR code and see how easy it is to contact me (THIS is how easy it will be for your potential and current customers to contact you).

I look forward to helping you turn your marketing efforts into actual sales!
