TRAINING OVERVIEW

PROGRAM BACKGROUND

As one of its first initiatives, the Business Resiliency Taskforce partnered with Community Futures Grande Prairie & Region to create the Business Advisory Services Program. The program focused on connecting eligible businesses impacted by COVID-19 with professional services to assist in pivoting their operations and remaining viable during the pandemic, particularly when most businesses were mandated to close.

During this initial phase, it was discovered that the majority of businesses in the program required support in their digital services and marketing efforts. Due to COVID-19, digital marketing and digital services has become a necessity as many individuals are limiting their outings and spending more time at home. Even while businesses are permitted to open, the volume of activity that used to occur at brick-and-mortar locations has changed drastically due to hyper localized shopping. Remaining visible and viable in this new reality has become more dependent than ever on having a digital presence.

PROGRAM OVERVIEW

With the findings noted above, the partners collaborated with nine10 Marketing to create a program that would empower local businesses with knowledge and skills to navigate the digital realm. While the Business Advisory Program was successful in providing rapid access to critical services to remain viable, the Digital Marketing Training will focus on a more grass roots and sustainable approach. Through a series of pragmatic, hands on workshops, businesses that have been financially impacted by COVID-19 will develop the skills and knowledge required to remain resilient and grow their business, digitally, in the wake of the pandemic and potential future waves.

PROGRAM STRUCTURE

The format of the training will be unique as there will be an emphasis on working through each step of the digital processes in a hands-on approach, rather than an academic format. The course content will be developed by nine10 Marketing, a local marketing firm with extensive experience in the subject matter, specifically with focus in the economic region.

THE PROGRAM WILL FOCUS ON SIX AREAS OF DIGITAL SERVICES/MARKETING:

- ▶ Digital content strategy
- ▶ Branding & visual identity
- ▶ Web design tools and applications
- ▶ Social media
- ▶ Search engine marketing
- ▶ Websites & E-commerce

Up to two participants from each business will participate in a blend of both half and full day workshops over the course of 8-10 weeks beginning in September for a total of approximately 24 hours of training, plus dedicated time for one-on-one consulting with a technical expert to address specific questions and concerns.

Following completion of the training, businesses can expect to have a high-level understanding of creating a brand as well as what it takes to “activate” a brand through digital marketing channels – specifically via websites, social media and search engines. The training will be a blend of informational instruction as well as hands-on how-to sessions, including a session where all the learnings are brought together in a workshop dedicated to making and launching a real digital marketing campaign.

FOLLOWING THE TRAINING, PARTICIPANTS SHOULD BE ABLE TO:

BRANDING AND CANVA

- ▶ Understand what a brand is and why consistency is important
- ▶ Understand the important difference between logo, visual identity and brand/audience insights
- ▶ Use Canva to create brand-compliant graphics

CONTENT DEVELOPMENT AND CURATION

- ▶ Create engaging posts on blogs, Facebook and Instagram
 - How to effectively share articles and externally found content
 - Creating a simple content schedule for social media
 - Curating ideas and finding content to fit various themes
 - Outlining rules for social media sharing
- ▶ How to choose topics for blog posts and use simple strategies to write compelling posts
- ▶ Basic knowledge of third-party apps including boomerang, layout, etc.

WEB, SOCIAL, SEARCH

- ▶ Understand the general structure of a website
- ▶ Identify when and why to update their website
- ▶ Develop basic social media strategies
- ▶ Update their social media profile information, including profile and cover images
- ▶ Arrange their social media profiles in an effective manner for their business
- ▶ Create graphics for profile images, cover images, and posts
- ▶ Create engaging, attractive posts for their timelines
- ▶ Understand the basics of how the newsfeed works (newsfeed optimization)
- ▶ Understand and implement general SEO methodology, e.g. titles, images, keywords

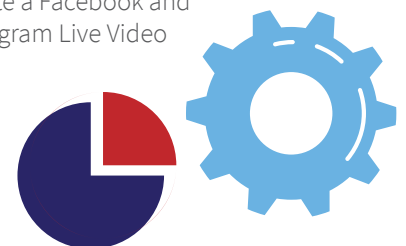

DIGITAL CAMPAIGN CREATION

- ▶ Be able to take an idea and promote it effectively
- ▶ Create full digital campaign plan and budget
- ▶ Understand and use timelines and runtime to create effective campaigns
- ▶ Develop clear, organized messaging for digital campaigns
- ▶ Understand which channels would work best for campaign goals
- ▶ Create written and visual content
- ▶ Understand how to execute a digital campaign

ADVERTISING ON FACEBOOK AND INSTAGRAM

- ▶ Build and boost a post effectively
- ▶ Create a simple ad strategy
- ▶ Create a single image or carousel ad
- ▶ Understand how to choose a Facebook campaign strategy, budget, and geographic locations
- ▶ Create and save a custom audience based on age, gender, etc.
- ▶ Create a Facebook and Instagram Live Video

TRAINING OVERVIEW

ELIGIBILITY CRITERIA

Eligible businesses must:

- ▶ Be located within the City of Grande Prairie or County of Grande Prairie, including the towns and villages within the County's borders
- ▶ Have been in business for a minimum of 6 months
- ▶ Be able to demonstrate a 30% reduction in revenue over the previous year
- ▶ Have at least one employee (not including the business owner)
- ▶ Must have a Business Facebook and/or Instagram Page
- ▶ Must have a business website or be in the planning phase of building a website

PROCESS

1) APPLICATION

Applications will be accepted from July 21 to August 5. Interested businesses will complete the online application.

2) APPLICATION REVIEW

The Application Review Committee will review all applications and select ten businesses based on the eligibility criteria and demonstrated needs as well as trainability. Applicants will receive notification of acceptance into the program by August 17.

3) ONBOARDING

To ensure all businesses are prepared to enter the training sessions with the necessary tools and background knowledge in place for hands-on learning (e.g. Facebook account, Instagram, etc.), they will receive a short orientation. Participants will have at least two weeks to complete any tasks required to enter the in-person sessions. This step will be necessary to ensure all businesses have the universal background knowledge so that workshop learnings can be maximized.

4) TRAINING SESSIONS

In-person training will begin the week of September 14. There will be 5 sessions which will be a blend of both half and full day workshops over the course of 8-10 weeks. There will also be dedicated one-on-one time with technical experts.

5) STRATEGY SESSION

Following workshop training, time will be allotted for a one-on-one strategizing session with a technical expert to assist businesses in developing a digital strategy tailored to their goals and needs.

6) EXIT SURVEY

Following the sessions, businesses will complete an exit survey to provide feedback and evaluation of the program.

COST

Participants accepted into the program will pay a nominal fee of \$250 to cover incidental costs (catering, venue, etc.). The value of the program is \$4,000 per business (\$2,000 per participant); however, municipal contributions are subsidizing the cost for local businesses to assist businesses recovery in the wake of COVID-19.

***Remaining viable
in this new reality
has become more
dependent than ever
on having a digital
presence.***
