

# Frankfort Chamber Member Spotlight

## Fresh Air Expert Disinfecting Spray Service

PO Box 635, New Lenox

### How long has your business been open?

One year, seven months

### The primary service of the organization:

Sanitizing and disinfecting spray service

### What makes your business special?

Clinically Clean with our quick spray service that applies hospital grade disinfectant safely, quickly, affordably, everywhere in your living and working spaces while also being a deodorizer that eliminates smoke, pet, mold and mildew odors.

### Best thing you do/serve at your business:

Kill viruses safely around people, pets, and food safe.

### Something people don't realize about your business/services?

We are the final step in being Clinically Clean that improves air quality, stops cross contamination, and is safe around children, seniors, pets, and food safe that does not corrode metal, electronics, or soft surfaces while being respiratory friendly and hypoallergenic. We are family, faith, and focused business that prides ourselves on education and integrity.

### My favorite thing about being a Frankfort Chamber member is:

Learning about not only other Frankfort businesses but the people, their personality and drive to dedication. The other members care and want the best for each other, they share what you do, and truly appreciate when you use their business also.
