### Best thing you do at your business:

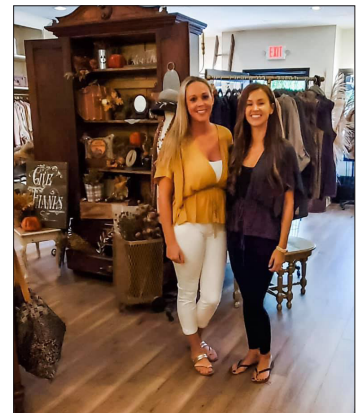

Our top priority is customer service. We look for ways to go above and beyond for each person that steps into our shop. From our employee's hand delivering items to customer's doorsteps, to holding something aside we know a particular customer would love, or guiding them to the perfect outfit--it is our goal to make them feel special and make them feel like family. We have so many regular customers that come back for this very reason! We love our customers and consider it a joy to serve them well.

### My favorite thing about being a Frankfort Chamber member is:

The Frankfort Chamber is such a supportive community. It is so nice to be in a group of inspiring local small business owners where we can all work together, share ideas, plan events, and gather together to make Frankfort's small businesses and local downtown thrive.
