THIS REPORT WAS PREPARED BY THE DEVELOPMENT SERVICES DEPARTMENT

INTRODUCTION: DEVELOPMENT SERVICES DEPARTMENT

I welcome you to read and review our new Monthly Activity Report. This is the City of Cape Coral Development Services Department's effort to provide comprehensive, timely, reliable, and transparent information to the public, developers, and others interested in knowing about the great work Cape Coral leadership and employees perform.

The number of activities in almost every area in Development Services are record breaking, performed as efficient as currently possible, with a new long-term vision we are headed towards in order to achieve EXCELLNCE: Building Department Accreditation (see back cover for reference).

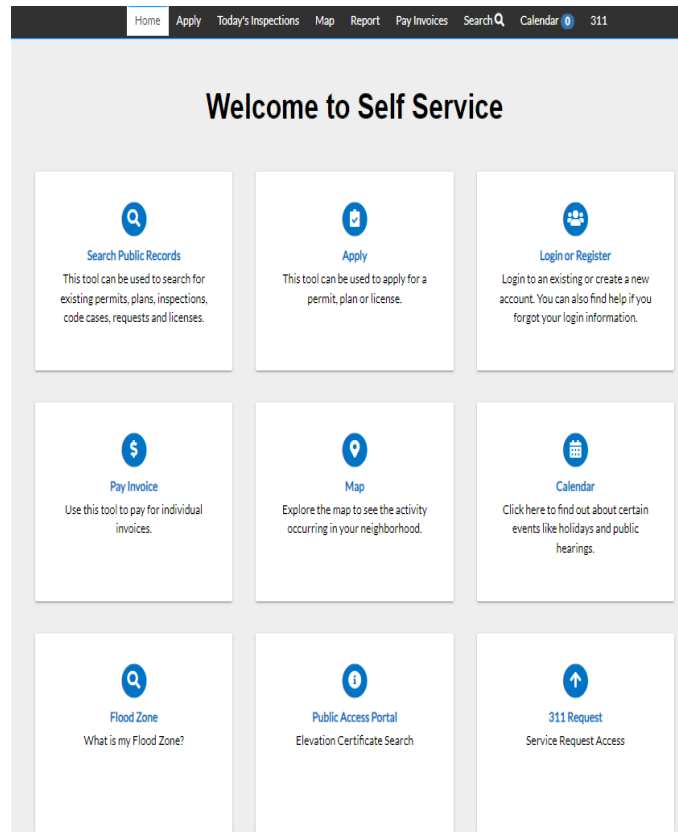

In Development Services, there are no silo's, every division is tied to each other, in reference to the steps needed to keep our residents safe and our community beautiful. We strongly believe in the team concept: either we all win, or we all lose. We could not provide our customers with the level of service that we do, with the number of activities performed, if it wasn't for the dedication of our employees, the leadership from our elected officials, and the support of the City Manager and other departments. This is truly an example of teamwork-based success.

I think it is important that I also recognize the support from the Cape Coral Construction Industry Association as well as the Lee Building Industry Association, whose communications with us and recommendations for improvement serve to guide us in continuing our efforts to become efficient, provide great customer service, and hear the voice of our local building industry, which is a major economic engine for Cape Coral.

Respectfully,

Juan G. Guerra, ICMA-CM, CPM
Development Services Director - Interim

Average Days To Issue Permit - FY 2023

	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	Jun	Oct-June
Plans Examiner										
Average plan review time (business days):										
Commercial	12	19	20	19	22	20	18	16	15	18
Residential	26	20	20	22	9	8	8	8	8	14
Permitting										
BLD - Single Family	37	60	60	63	63	75	94	87	96	77
# of permits issued	2	58	80	213	215	209	193	221	183	1,374
BLD - Single Family Mastered	N/A	N/A	N/A	N/A	N/A	N/A	44	34	48	40
# of permits issued	N/A	N/A	N/A	N/A	N/A	N/A	9	59	41	109
Construction Commercial	177	190	141	184	151	188	261	121	278**	189
# of permits issued	7	25	10	27	23	38	28	51	34	243

**June 2023 Commercial Construction average days to issue permit was high due to two main reasons:

1) Legacy permit from 2021, 545 days to issue permit due to resubmits and delay in payment of permit (Kava Bar)

2) 19 permits taking 343 days, started Aug 2022, 3 resubmittals (6 mo delay), 1 mo to pay fees (Noble Vines apartment complex)

EnerGov stabilization & optimization efforts

The EnerGov permitting and licensing system is currently stable and is processing a record number of permit applications each month. However, staff continue to experience slow performance in the Review Coordinator module, utilized by Permitting Services staff to coordinate permit reviews and issue permits. According to Tyler Technologies, this slow performance is due to:

- 1) The high volume of permit application and document review tasks, and
- 2) the current review assignment configuration, which assigns all review tasks to all Permitting Services staff members.

To address the Review Coordinator performance issues, DSD, ITS, and City Manager's Office staff are completely reconfiguring the EnerGov system's **over 70 "work classes"** to divide review tasks into 4 different review teams. The re-implemented EnerGov review workflows are scheduled to go live on September 14th, 2023, along with the upgraded 2022 version of EnerGov. ITS is also regularly utilizing data clean-up "scripts" to remove unnecessary review tasks to improve system speed.

This month, the City's EnerGov Task Force will also complete several additional initiatives to improve permit efficiencies, including:

- 1) Enabling owner-builder applicants to submit permit application documents through the EnerGov Customer Self-Service (CSS) portal (same as contractors),
- 2) migrating system data to expandable City servers, allowing for sustainable permit application data storage, and
- 3) additional bug fixes and department-requested functionality improvements.

As EnerGov is a customizable and ever-changing platform for permit application processing, inspections, and code enforcement tasks, Development Services is currently finalizing the development of a new Business Systems Analyst position to complete system changes more rapidly. This position will allow DSD to continuously improve EnerGov and implement changes more efficiently, without the need to pull Permitting Services staff from daily operations.

Public Outreach–Educational Efforts

Development Services will begin operations to provide annual education and public outreach activities to our community and building industry. This effort will be called:

Development Discussions in the Cape!

Annually, our goal will be to provide:

- Four (4) in-person public outreach efforts in the four major quadrants of the city, with DSD, Fire, Utilities, Public Works, and EDO
- A monthly (12 total) virtual educational session to our customers
- Topics will range from: Using EnerGov, The Perfect Permit, Post Hurricane Permits, Environmental Compliance, among others

SAVE THE DATE

DEVELOPMENT DISCUSSIONS
In the Cape

Join us to learn more about Development Services, how to navigate as a developer, and the best ways to obtain information as a resident.

This event is **FREE** and open to the public. Staff will be available to answer your permitting questions.

August 3
Time and Location: TBD

The goal of this program is to connect with our customers, understanding their concerns firsthand, and enable our staff to view themselves in the customer's perspective, ultimately improving our operations and providing improved customer service. Program starts August 3!

Implementation of BEST PRACTICE, and IAS Accreditation process

Great service for our Residents

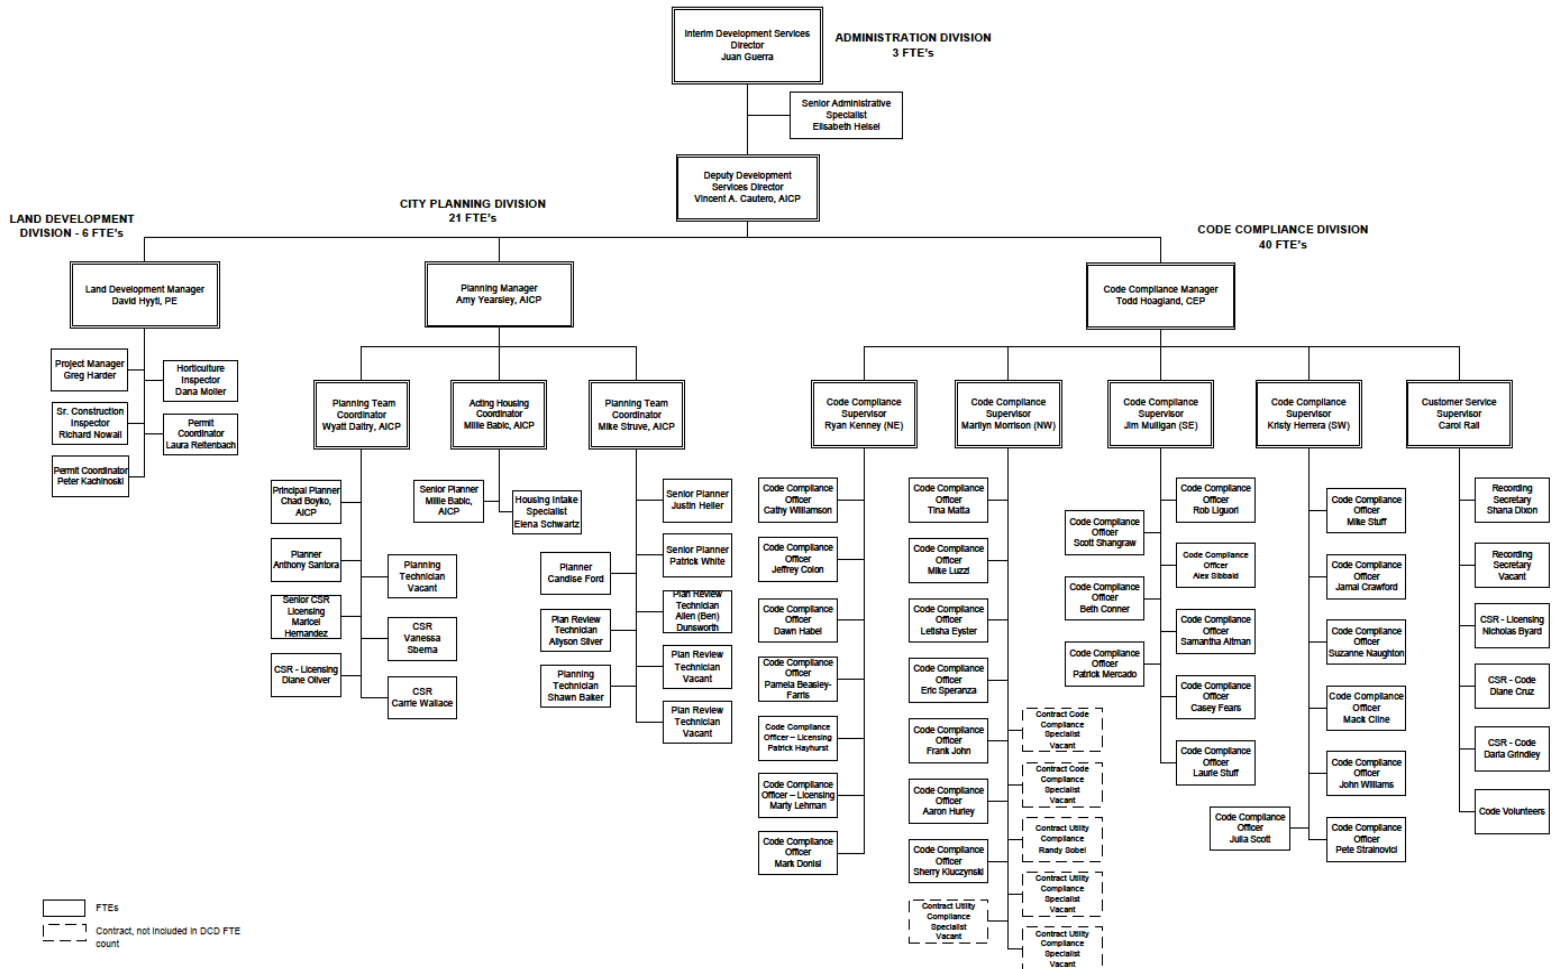

Code Officer Mark Donisi- RESIDENT contacted the mayor's office to pay compliment to Code Officer Mark. He called to let the city know how impressed he was with Mark from Code Enforcement, who was a true gentleman. Unfortunately, Mr. Thomas did not get Mark's last name, but was extremely impressed with how nice he was and how Mark communicated with him throughout the process of bringing helping clean up his neighborhood. He states that he no longer has goose-neck trailers parking in his neighborhood.

Code Officer Tom Ellis- My husband and I have worked several times with Code Compliance Officer Tom Ellis. I am writing today to make you aware of his outstanding service to the City of Cape Coral. Since lan some residents are ignoring City ordinances, while Code is rightfully focused on making sure rebuilding from lan is done correctly. Our neighborhood has been impacted by this like other neighborhoods. Officer Ellis has worked in our neighborhood to bring awareness to residents when their actions don't meet code. He is timely, diplomatic, professional and respectful to all the neighbors. He does a great job of following up with everyone to correct developing blight in our neighborhood. We have a great neighborhood; our focus is on keeping it that way. We are glad that Officer Ellis has been assigned to our area. Working together we will keep our neighborhood safe and beautiful. So, kudos to Officer Ellis for being such a great representative of our city. RESIDENT

Code Officer Patrick Mercado- RESIDENT called to say how much he appreciated working out his code violation with code officer Patrick Mercado. It took a few weeks to resolve, but the communications were excellent. The code officer showed patience and empathy suggesting ways to bring the property into compliance. He truly appreciated the top-notch customer service.

DSD LEADERSHIP TRAITS & PRINCIPLES

Professionalism
Respect
Ethics
Cross-training
Efficiency
Performance
Transparency
Synergy

1. Know yourself and seek self-improvement
2. Be technically and tactically proficient
3. Know your team and look out for their welfare
4. Keep your team informed
5. Set the example
6. Ensure the task is understood, supervised, and accomplished
7. Train your staff as a team
8. Make sound and timely decisions
9. Develop a sense of responsibility among your subordinates
10. Employ your command in accordance with its capabilities
11. Seek responsibility and take responsibility for your actions

Our "JOURNEY" to achieving EXCELLENCE

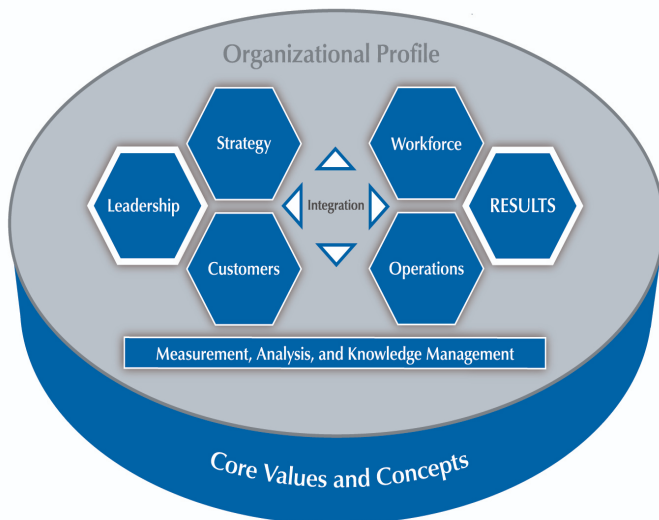

<https://www.iasonline.org>

IAS Accreditation for Building Departments

- Demonstrates that departments implement best practices for public safety.
- Independent verification to ensure that departments are competent and meet nationally recognized standards.
- A performance tool that helps departments proactively establish, and assess goals for public safety, customer service, budgeting, professional development, and other related functions.
- Enhances the public and professional image of building departments.

Utilizing the **BALDRIGE EXCELLENCE FRAMEWORK**

<https://www.nist.gov/baldrige>

The Role of Core Values and Concepts

The Baldrige Criteria build on core values and concepts...

which are embedded in systematic processes... (Criteria categories 1-6)

yielding performance results. (Criteria category 7)

*Journey to **EXCELLENCE** starts now! Process usually takes 2-4 years. Note: Will require support of elected officials, City Management, development industry, and stable DSD management.*
