

Ten Steps All Workplaces Can Take to Reduce Risk of Exposure to Coronavirus

All workplaces can take the following infection prevention measures to protect workers:

- 1** Encourage workers to stay home if sick.
- 2** Encourage respiratory etiquette, including covering coughs and sneezes.
- 3** Provide a place to wash hands or alcohol-based hand rubs containing at least 60% alcohol.
- 4** Limit worksite access to only essential workers, if possible.
- 5** Establish flexible worksites (e.g., telecommuting) and flexible work hours (e.g., staggered shifts), if feasible.
- 6** Discourage workers from using other workers' phones, desks, or other work tools and equipment.
- 7** Regularly clean and disinfect surfaces, equipment, and other elements of the work environment.
- 8** Use Environmental Protection Agency (EPA)-approved cleaning chemicals with label claims against the coronavirus.
- 9** Follow the manufacturer's instructions for use of all cleaning and disinfection products.
- 10** Encourage workers to report any safety and health concerns.
