 Pollution Prevent in Shops

BEYOND JOINT VENTURE: AN ALLIANCE

<u>MAZDA</u>

- Learn North American manufacturing knowledge
- Efficiency of shared supply base

<u>TOYOTA</u>

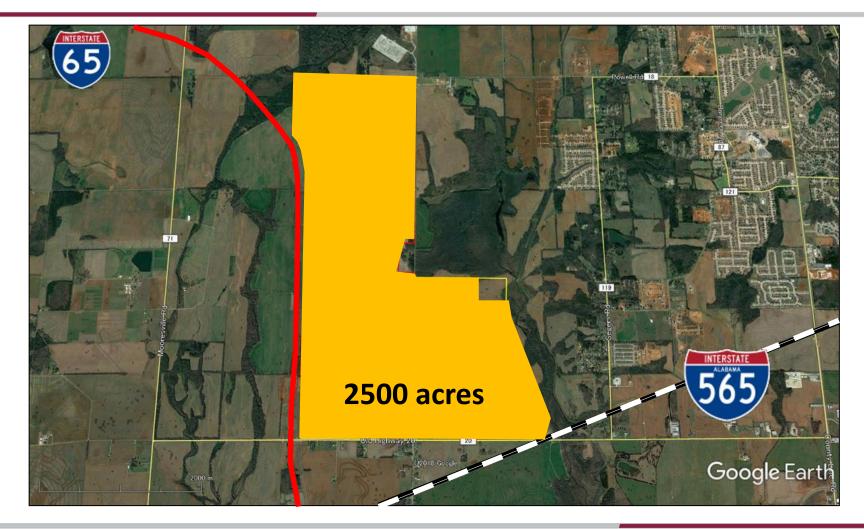

- Learn from outside to make internal change
- Strengthen North American
 production structure

Site Footprint

Summer 2018

Summer 2019

MTM PLANT: Summer 2021

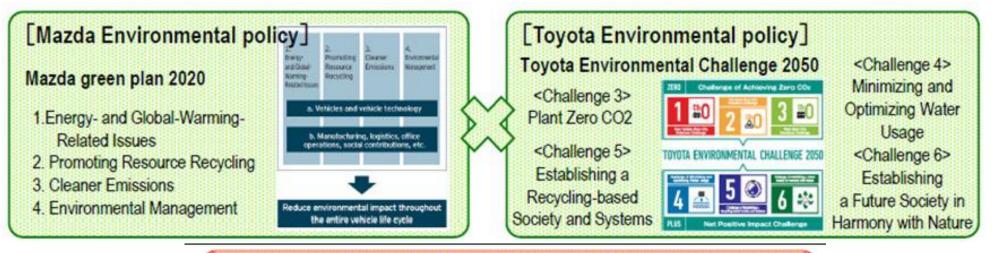

Environmental Stewardship and the MTM Commitment to Environmental Excellence on Campus

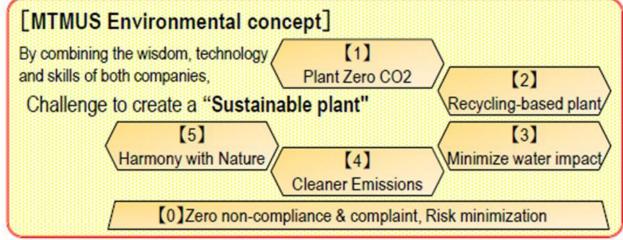

- Sensitive Species and Critical Habitat
- Comprehensive Monitoring Plan
- Habitat Restoration Project
- Site Footprint

Environmental Concept

5 Year Comprehensive Monitoring Plan: Sunfish and Habitat

Conservation Corridor:

City of Huntsville 🗯 State of Alabama & Forever Wild 🗯 Land Trust of North Alabama

2019 – To Current

- Annual Reports Findings(2019-2020 and 2020-2021, 2021-2022) 'no significant impact'
- Overall findings showed a <u>10%</u> <u>increase</u> in Sunfish population in 2019 compared to the same time period in 2015-2017
- Additional 5-10% increases in two following annual reporting years

Habitat Restoration Project - Before

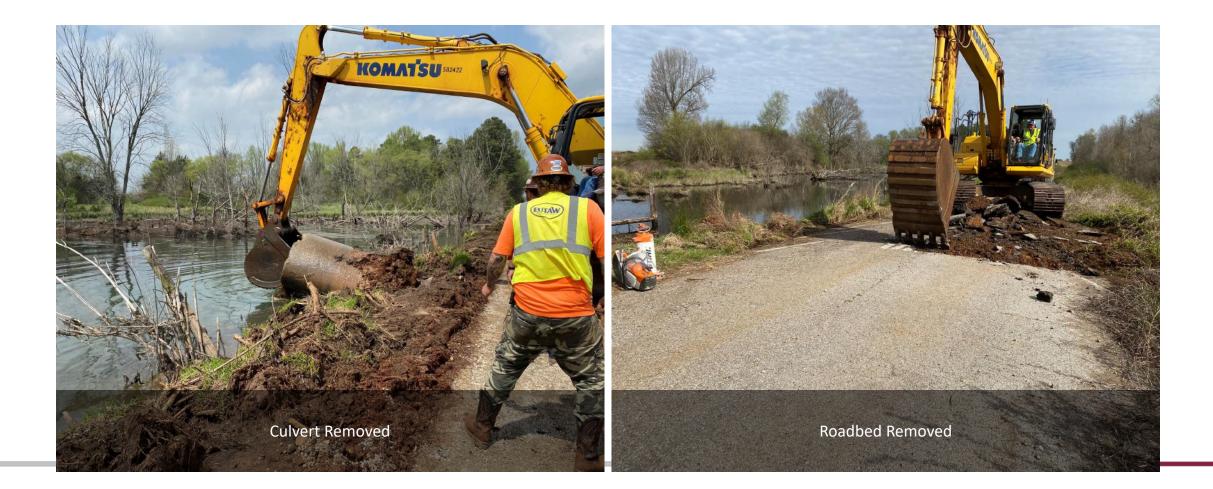

Habitat Restoration Project- During

Habitat Restoration - After

Pollution Prevention in the Shops

- Air
- Stormwater/SPCC
- Waste

MAZDA TOYOTA MANUFACTURING

Approach to Air

- Shared/Common Emissions Control Systems to support dual manufacturing lines
 - Less natural gas combustion
 - Reduces NOx emissions
 - Energy conservation

Approach to Air and Wastewater

- Mazda's AquatechAqua-tech technology
- Reduce VOC and High contrast color
- Toyota's airless paint atomizer technology
 - Airless high efficiency clear coat

- <u>Eliminates</u>:
 - Water Use
 - Wastewater
 - Directs overspray into a dry filter system

Approach to Stormwater and SPCC

Quality Audit – Gas Fill

Paint Shop – Covered Waste/Scrap Accumulation

Approach to Stormwater and SPCC

Approach to Wastes

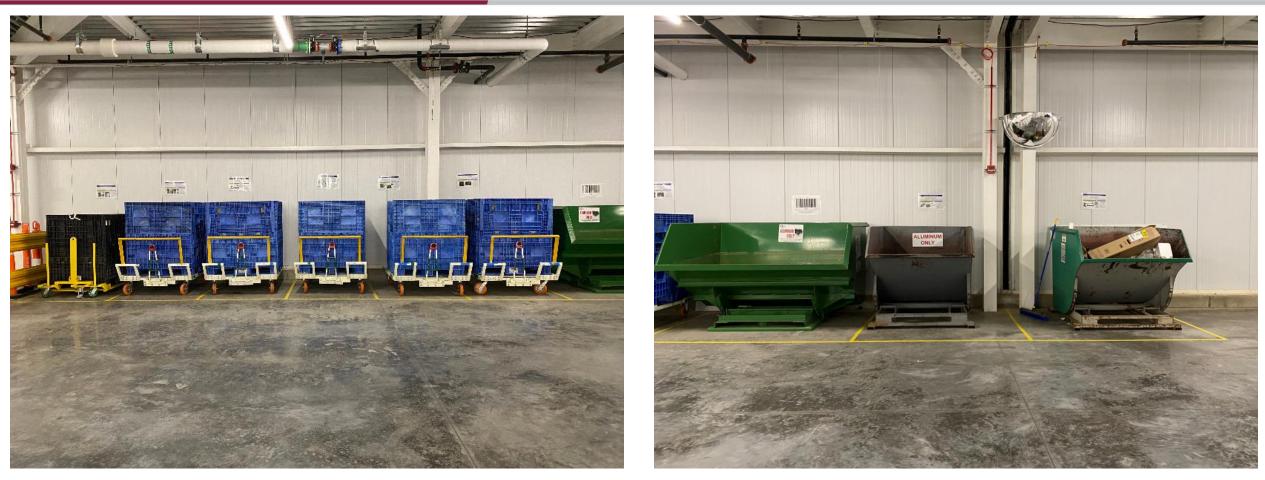

Approach to Wastes

Approach to Waste – Zero Landfill

		Miscellaneous Trims, Adhesives, Standard		Waste to Energy
Non Hazardous solid waste		Trash, Cafeteria Trash, Sweepings, Oily rags Filter media, Sludges, RCRA empty containers		Shredding facility, Secondary fuel solids
Hazardous Wastes		Solvent rags/wipes, Acids, Solvent wastes Adhesives, Phosphate waters, hardeners, Other items analyzed as such		Approved Vendor Lists via Waste to Energy, Incineration, Reclaimation
Solvents Recovery		Solvent purge captures, Solvent and paint, Fuel captures	•	Reclamation and Fuel Blending
Universal wastes		Batteries, Bulbs, Residual Pesticides	,	TSDF Facilities
Used Oils	→	Turning oils, Hydraulic fluids, Stamping Pit captures		Recycling vendor collection

Thank You!
