**DPHSS Issues Guidance Memo 2020-11 Rev 13; Seven of 356 Test Positive for COVID-19;
UPDATED: COVID-19 Vaccination and Testing Schedule**

DPHSS Issues Guidance Memo 2021-11 Rev. 13

Today, the Department of Public Health and Social Services (DPHSS) issued [DPHSS Guidance Memo 2020-11 Rev. 13](#), relative to additional guidance pursuant to Governor's [Executive Order 2021-15](#), which amended restrictions for incoming travelers and quarantine facilities.

All incoming travelers into Guam are subject to a ten (10) day quarantine. Travelers arriving into the United States from any foreign country are subject to the Centers for Disease Control and Prevention (CDC) requirement of obtaining a negative pre-departure COVID-19 test result or documentation of recovery from COVID-19, and are still required to undergo quarantine based on their traveler status as defined in DPHSS Guidance Memo 2020-11 Rev. 13 and, are subject to exemptions as in this guidance memo. Further guidance for travelers who may be eligible for exemption from quarantine is as stated:

- **PRE-ARRIVAL NEGATIVE COVID-19 RT-PCR TEST**

- Passengers who present a negative COVID-19 RT-PCR test may be exempt from quarantine. Passengers seeking exemption from quarantine under this section must present the following at the port of entry upon arrival:
 - Photo identification (e.g., passport, driver's license, state-issued identification);
 - Valid negative COVID-19 RT-PCR test result collected within 72 hours prior to arrival into Guam.

RT-PCR tests detect SARS-CoV-2 genetic material. These tests identify individuals who are currently infected with SARS-CoV-2. Test results must include **patient name, date of birth, specimen collection date, and the type of COVID-19 test performed**.

- **OTHER PRE-ARRIVAL NEGATIVE COVID-19 VIRAL TEST**

- Passengers who do not qualify for exemption from quarantine (i.e. no pre-arrival negative COVID-19 RT-PCR Test or not fully vaccinated) may qualify for quarantine at a rental lodging or personal residence. In order to qualify, passengers must present the following at the airport upon arrival:
 - Photo identification (e.g., passport, driver's license, state-issued identification); AND,
 - Valid negative COVID-19 viral (non-RT-PCR) test result collected within 72 hours prior to arrival into Guam.

Other viral tests, such as LAMP tests or antigen tests, also detect SARS-CoV-2 genetic material or specific proteins on the surface of the SARS-CoV-2 virus. These tests also help to identify whether individuals are currently infected with SARS-CoV-2. Test results must include **patient**

name, date of birth, specimen collection date, and the type of COVID-19 test performed.

[DPHSS Guidance Memo 2020-11 Rev. 13](#) contains arrival protocols, including, but not limited to guidance for travelers with prior COVID-19 infections, arrivals from areas with no (active) cases or imported/sporadic cases, emergency or hardship-related travel to Guam and critical service worker requests.
