Testimonials

“ I can't believe it. My husband's asthma medication is usually \$300. I asked the CVS rep about the Kentucky Rx Card and she came back and said that the prescription would only be \$185. I was floored. Thank you SO much. This is a big deal for our family.

Julie M.
Bowling Green, KY

“ I spilled my kid's prescription and my insurance wouldn't cover another refill within 30 days. So I pulled out the Kentucky Rx Card and was surprised to find that the discounted price was less than my insurance co-pay. I wish my health insurance was free like the Kentucky Rx Card!

Carson K.
Lexington, KY

“ You have answered my prayers! My husband and I both take the same heart medication and were having to take pills every other day in order to afford it. Thanks to your card, we can afford to fill the prescription monthly and we saved over a hundred dollars on our other medications. I am so glad we found you.
