## WHY LEADERSHIP LINCOLN?

This is an opportunity for personal and professional growth.

Have you ever wondered how some people become civic leaders in the various aspects of the community? Over **9 months** you will learn about the opportunities that exist in Lincoln and how you can become involved in shaping the future of our City as a leader of the community.

The Leadership Lincoln program provides an intensive series of one day workshops covering a diverse set of topics and tours of institutions that are a part of the Lincoln and Placer County Community. The facilitators of each class organize a well balanced day of topics, presenters, speakers and tours.

Our students are from various industries in Lincoln and Placer County—some in business, education, non-profit sector, local government and entrepreneurs. There is really something for everyone. You will learn about the education system in Lincoln from elementary to higher education, take a tour and get a behind the scenes chance to experience Lincoln Civics, the challenges and decision making processes in our local government and take a tour of several locations for our session on agro-tourism.

One of the benefits of this program is the networking opportunities provided through your peers in the class, the presenters and facilitators.

The time commitment is reasonable: only one day a month for nine months and the cost is much less than what you might pay for a university class. The return on this investment has been tremendous for both alumni and the community. So take advantage of this opportunity for personal and professional growth. It will benefit you and your community.
