Alpha Omega Epsilon Foundation

The Alpha Omega Epsilon National Foundation was established in 1996 by five alumnae of Alpha Omega Epsilon Sorority. The Foundation's mission is to provide educational opportunities to women in engineering and technical science that enhance personal, professional, and academic development. With individual contributions and corporate sponsorship, the Foundation promotes women in the fields of engineering and technical science through scholarships and organizational grants to qualified programs.

Professional Fraternity Association

Alpha Omega Epsilon is registered on a national level with the Professional Fraternity Association, and is therefore considered to be both a social and a professional sorority. Representatives from the International Executive Board attend their national convention each year.

professionalism*

A O E

mission

Alpha Omega Epsilon is professional sorority founded in 1983 that promotes friendship, leadership, and professionalism to all members of the organization, the community, and our professions.

objectives

To create friendships while promoting self-confidence, professionalism and motivation among female engineers and technical scientists of all curricula.

To work for the betterment of the individual and the Sorority as a whole.

To create a friendly and warm environment among its members.

To promote the welfare and interest of the profession.

To strengthen the relationships between students and faculty.

To enhance educational achievements and scholarship.

To help develop the highest standards of personal integrity and character.

To foster and maintain the bond of sisterhood through a continuing program for the alumnae.

ideals

As an individual, I will promote integrity, character, honesty, self-confidence, and uphold my financial responsibilities.

As a sorority, we will promote unity, friendship, professionalism, follow traditions, and maintain our image.

As an integral part of the school, we will promote engineering and technical science activities, high scholastic standards, and strong relations between students and faculty.

As an active member in the community, we will promote understanding, knowledge, and communication within our profession.

benefits of sisterhood

Relationship Development

Develop ties of friendships that last a lifetime!
Be a part of a support group that helps you and others get through stressful times in college.
Have a group of friends that becomes your family away from home.
Gain support from women who understand your concerns, fears, and problems.
Contribute your community through service projects.

Personal Development

Develop leadership skills.
Gain more self-confidence.
Create better self-esteem.
Build teamwork skills, as you work toward common goals.
Develop and improve communication skills.

Academic Development

Take advantage of tutoring from upperclassmen and study groups for classes.
Have a voice in the college.
Open networks with other activities and organizations.
Meet engineers in different curricula and with different ages and experiences, who can offer advice for classes, teachers, career choices and co-op experience.

Professional Development

Create networks with sisters, alumnae, and other professionals to gain career advice and job contacts.
Learn important professional skills like job seeking techniques.
Earn experience in goal setting and leadership.
