

WILSON CHAMBER
OF COMMERCE

2020 Policy Agenda

The Wilson Chamber of Commerce is the leading voice of the Wilson business community, with its membership representing a majority of employers in the county. The Chamber holds the following positions in five policy areas, each with equal priority, and will expect decision-makers to consider these positions when determining public policy.

EDUCATION

The Chamber supports policies which enable all education providers to sufficiently prepare students to enter the workforce. Educational opportunities should be readily accessible and capable of meeting the diverse needs of learners in Wilson County.

Policy Priorities

- **Direct adequate funding and resources to Wilson County public schools, teachers, support staff (e.g. nurses, counselors, etc.) and administrators, based on needs expressed from local leaders.**
- **Increase funding per full-time equivalent (FTE) student at Wilson Community College.**
- **Provide greater access to professional development opportunities to private school personnel.**
- **Maintain current tax-exemptions for not for profit independent institutions such as Barton College.**
- **Maintain tuition at public universities at reasonable levels that do not place Barton College at a competitive disadvantage to recruit students.**

AGRICULTURE & ENVIRONMENT

The Chamber recognizes the unique role agriculture plays in our environment and economy. We support policies which encourage responsible environmental stewardship, and allows our agriculture community to thrive.

Policy Priorities

- **Ensure consistency between the state and federal tax codes which seek to preserve or enhance tax exemptions on equipment and supplies.**
- **Support appropriate immigration reform that fulfills the labor needs of agricultural producers.**
- **Support educational and training programs that adequately prepare the agribusiness workforce.**

- **Continue recurring appropriations to the NC Tobacco Trust Fund and support of the Golden LEAF Foundation.**
- **Enhance efforts to promote Wilson County agricultural products in overseas markets.**

PUBLIC SERVICES

The Chamber supports policies which encourage participatory policy development, transparent governance, and regulations that allow for fair competition and business growth. Community development should be driven by local initiative with direct and representative input from those most affected.

Policy Priorities

- **Support efforts to fairly permit and regulate business and industry that does not adversely affect competition or the public interest.**
- **Recognize that Historic Downtown Wilson is a vital center of commerce that should be a priority for development, with efforts made to preserve its unique historical and cultural identity.**
- **As much as safe and practical, regulatory and public service decisions should be made by policy-makers nearest to the people those decisions will affect.**
- **The tax burden should be distributed to not disproportionately affect consumers, industries, or small business owners.**

HEALTHCARE

The Chamber recognizes the economic benefit of a healthy community. We support policies that aid in the transformation of healthcare systems to improve health outcomes and quality of life for all citizens of Wilson County.

Policy Priorities

- **Support legislation that reduces the financial burden on employers and workers to secure meaningful healthcare coverage.**
- **Support appropriate Medicaid reform that ensures ready and affordable access to primary care providers.**
- **Continue adequate funding to “safety net providers”, including the Wilson County Health Department, Wilson Community Health Center, and other federally qualified community health centers.**
- **Grow the supply of healthcare providers by increasing educational and development opportunities in healthcare professions.**
- **Support legislation that reduces barriers and increases options for affordable and safe primary care.**

TRANSPORTATION & INFRASTRUCTURE

The Chamber understands the importance of fair access to community resources. We support public and private infrastructure that allows the safe exchange of goods, services, and ideas.

Policy Priorities

- **Redevelop US Hwy. 301 in a way that responsibly utilizes limited local resources to optimize state and federal funding.**
- **Allow broadband technology to develop in a way that reaches the greatest number of people, including those in rural and underserved areas, without unnecessary regulatory barriers.**
- **Design public transit systems (including bus and passenger rail services) with an aim to provide everyone in Wilson County with affordable and reliable transportation options.**
- **Encourage the development of the interstate highway system in and within close proximity to Wilson as a means of accessing new markets and ports.**
- **Support legislation that preserves local control of water resources.**

Adopted by the Wilson Chamber of Commerce Board of Directors this 11th day of December, 2019.

Anita Turnage Jones (*Anita's Marketing*), Chair, Board of Directors
Wilson Chamber of Commerce

Respectfully submitted and inviting inquiry,

Ryan W. Simons, President
Wilson Chamber of Commerce
