

September 26, 2020

Lockhart Chamber of Commerce
702 South Commerce Street
Lockhart, TX 78644

Dear Participants –

Thank you so much for being at this forum today. I wish I was able to be there, but the schedule put me serving in Washington DC this week.

For the past two years, it has been a tremendous honor to represent my fellow Texans in Congress. My top priority is defending our constitutional conservative values and ensuring we pass on a safe, secure and prosperous America to our children and grandchildren. We have much work still to do.

When you elected me to Congress - I would have never imagined that we would be debating issues like defunding our police forces, whether babies born alive had a right to live, or if we had a right to worship or speak our mind without fear of mob reprisal, but unfortunately in 2020 around America - these are the debates we are having.

I ran for Congress to represent your families and to fight for our faith, our families, and our preserve our freedoms. These principles are under attack in an unprecedented way in 2020 and must be defended.

I understand Texas conservative values and why they are important. I have attempted to serve our communities with kindness, yet boldness - taking every vote with my children and grandchildren and yours at the front of my mind. From the U.S. Chamber of Commerce, National Right to Life, to the Susan B. Anthony List, to the National Rifle Association, to the Farm Bureau PAC, to economic and fiscal responsibility groups like FreedomWorks and Americans for Prosperity- I have earned their endorsements or their high honors because of my conservative record in Congress. .

Thank you for your prayers for our family, your participation in your community and the Chamber of Commerce, and our belief in the goodness of America.

I would be honored to win your vote again on November 3rd.

God Bless,

Michael Cloud
