

AGC of America, supported by a Susan Harwood Federal Grant, is pleased to offer:

Fall Prevention in Construction Safety Training

Free to All Attendees

Program Description:

Construction workers make up approximately five percent of the country's workforce but account for an average of 19% of all job-related fatalities each year. In addition, falls account for the greatest number of fatalities in the construction industry, especially among small businesses. Over the past 10 years, at least, an average of 346 workers were killed from falls, and nonfatal injuries and illnesses that resulted from falls, occurred at a rate of 31.4 per 10,000 full-time workers in 2020. **AGC of America is pleased to offer this NO-COST one-day training program based on OSHA standards and best practices to answer the need for quality training within the industry.**

Who Should Attend?

- » Company Officers
- » Estimators
- » Managers
- » Project Managers
- » Supervisors
- » Foremen
- » Both Union and Non-Union Contractors

Training Date and Time: *Select One*

May 2
8:00 a.m. - 5:00 p.m. MT

May 3
8:00 a.m. - 5:00 p.m. MT

Training Location:

6135 Edith Blvd NE
Albuquerque, NM 87107

What Will I Learn?

- » Fall Protection Statistics
- » OSHA Standards for Fall Protection
- » How to Identify Fall Hazard Locations
- » Selection and Criteria of Fall Protections Systems and Equipment
- » Fall Protection Training Requirements
