## NRC AGENDA 2022-2023

A robust coalition of business and community organizations has come together to develop and advocate for policies to spark economic development and support businesses in local communities. There has never been a more important time to revitalize neighborhood business districts.

### *Here is our agenda:*

- Pass policies that reduce vacancies in local business districts
- Work with policymakers to ensure property owners and small businesses can find updated, accurate and clear guidance on zoning requirements
- Cut unnecessary red tape for small businesses and property owners
- Establish incentives for businesses that train and hire formerly incarcerated individuals
- Encourage local investment in local communities through intrastate equity crowdfunding
- Support local chambers of commerce

Do you have a suggestion about how to support business districts? Would you like to get involved? Learn more at SBAC/NRC page or reach out via email to [nrc@sbacil.org](mailto:nrc@sbacil.org).
