As in any small school system, the school and community support each other.

Members of the community:

- Donate time to be a mentor
- Listen to students read
- Math remediation
- Show school spirit at games and activities

HCPS is a technology rich school system.

We offer:

- Distance learning
- AP courses
- Dual enrollment
- Back pack initiative for grades 9-12
- 2 fixed computer labs
- 6 laptop carts
- Smart boards in classrooms
- Multiple IPAD labs for students
- Each teacher has laptop, IPAD

School Garden Project

Our school garden is just one more reason we're so unique. In partnership with The Highland Center, Virginia Cooperative Extension, and grant-making agencies, we renovated the campus greenhouse, constructed a raised bed garden, and initiated a community garden curriculum in the classroom. For more information or to participate alongside the PK to 12th grade students in growing, harvesting, and eating fresh produce, please contact The Highland Center, 540-468-1922.
