Paws of Pleasanton: Where your family is our family

Family-owned veterinary care now open on Santa Rita Road

Both Amanda Bloomberg and Melissa Hardy, veterinarians and owners of Paws of Pleasanton Animal Hospital, have shared a lifelong passion for animals. They are fellow graduates of Purdue University School of Veterinary Medicine in Indiana. After obtaining their doctorates in veterinary medicine, Amanda returned to the Bay Area and Melissa also moved there to be closer to family.

They both have worked in various practices around the East Bay for the past 7 to 10 years and even met each other briefly years ago. It must have been fate for these two Boilermakers because recently, an opportunity presented itself to open a new veterinary practice in Pleasanton.

With a huge shift in the veterinary field to corporately-owned hospitals, Dr. Bloomberg and Dr. Hardy feel strongly about open-

ing a privately-owned hospital where they can create the unique family-oriented feel that the pets recognize and clients appreciate. Together, they hope to share their dreams with you and welcome you to the family at Paws of Pleasanton Animal Hospital.

As of June 22, 2020, Paws of Pleasanton is open and providing compassionate care for your four-legged

family members. They strive to treat each and every patient who walks through their doors with kindness and respect. They offer high-quality medical care and cutting-edge technology to keep your pets feeling their best.

Services offered at Paws of Pleasanton include wellness care, vaccinations, parasite prevention, nutrition, comprehensive diagnostics, full-service dentistry, surgery, puppy/kitten care, urgent care, and end of life care. They are also working with Dr. Jessica Paige,

Dr. Melissa Hardy and Dr. Amanda Bloomberg recently opened Paws of Pleasanton, a privately-owned hospital where they can create the unique family-oriented feel that the pets recognize and clients appreciate.

an animal chiropractor, who will be working on Friday's starting in July providing chiropractic care for your pets.

At Paws of Pleasanton Animal Hospital, they believe it is their duty to do what is best for your pet and as well as the environment. They took this into consideration not only during their construction phase but also when implementing daily standards for their staff

members. Decreasing waste, electricity, and water consumption are just some of the things they are doing to help decrease their ecological paw print as they work to become Green Business Certified in Pleasanton.

Paws of Pleasanton is located at 3128 Santa Rita Road, Suite B in Pleasanton and can be reached via phone at 925-380-1888 and online at www.pawsofpleasanton.com.
