One-stop shop for your digital marketing

EmailsAndSurveys offers no monthly commitment

Are you a MailChimp, Constant Contact, or ezTexting Customer? Are you billed every month whether you use their service or not? Can you send an SMS and an email campaign? Can you post your message to your social media channels and send the same message via email or SMS? If you answered No to any of these questions, EmailsAndSurveys is a fit for you.

EmailsAndSurveys is a one-stop digital marketing platform with the most complete service in the market, best-in-class email editor, full-

featured SMS service, and lots of free services to ensure return-on-investment for your digital email campaigns. Their services include the following: Email Campaigns, SMS Campaigns, SMS Polls, Surveys, Assessments, Forms, Social Media Posting, Social Media Tracking, and a CRM.

What makes EmailsAndSurveys different is that they are the only service that gives customers a choice if they would like a monthly commitment or use a pay-as-you-go model, where you can send an email for just a penny or send an SMS for three cents. Why pay a

MailChimp, Constant Contact, or Simple Texting for a service you do not use.

EmailsAndSurveys also has free services, including online forms, a CRM where you can make phone calls and start zoom conferences and free social media posting and analytics to leverage your social media channels in your marketing campaigns. Try it out for free at www.emailsandsurveys.com or follow them on Facebook for what is coming next. Contact Mike Hoyman at 415-906-4001 or mike@emailsandsurveys.net with questions.
