

Business Spotlight

Extraordinary geographic details in every map

It's GeoJango's mission to create fascinating maps to help people learn more about the world. Maps have the unique ability to draw people in using spatial dimensions and visualization. GeoJango's maps are designed to make exploring the geography of the Earth's lands and oceans fun and fascinating.

GeoJango is a map company based in Pleasanton that specializes in Geographical Maps, GIS, and Remote Sensing Analysis. Founder and President Debbie Dennison is a GIS Engineer, Remote Sensing Scientist, Environmental Scientist, Geographer, and Cartographer. She and her team create specialized maps for education, decorative, marketing, and businesses that can be featured in lobbies, conference rooms, and as art. Every year, GeoJango donates hundreds of maps to local schools to promote geography education.

Educational and Travel Push Pin Maps

GeoJango creates educational and decorative USA and World maps and is one of the top selling high-quality maps in the nation.

Customized Business Maps

They create custom maps for corporate operations, marketing teams, restaurants, hospitality and tourism industries, as well as for community events. Feature a custom map in your lobby, conference room, or as informative wall art with your logo and favorite locations.

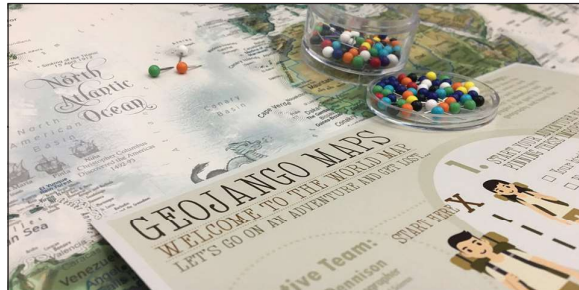

Professional GIS and Remote Sensing Analysis

GeoJango specializes in advanced GIS and Remote Sensing analysis for transportation, real estate, agriculture, environmental, and civic analysis. Their specialized skills include satellite imagery, data analysis, facility management, and environmental analysis. They create on-line interactive maps with interactive map tools that can be custom designed for businesses.

Explorer Cards is a new Geography Trivia Game for learning more about the world. Discover, learn, and challenge your friends and family with information about significant sites around the world. The Explorer Card deck includes 50 cards, featuring 50 destinations around the world and game instructions.

GeoJango's maps are designed to impress everyone, from the smallest maps to the giant wall maps.

Use the wall maps and push pin maps for business, home and office decor.

Every order is individually made by hand and shipped directly from their modern map studio here in Pleasanton. All materials that go into the production of their maps

are made entirely in the USA. GeoJango's impressive maps will make an impact with your customers and employees.

Trees

(continued from page 1)

way. Cody, who is now 17, started helping with the family business when he began walking and was packing 6-7" trees when he was six years old.

"We would love for you to come meet our family," said Wanda Hepler. "All of us will be on the lot the first weekend in December," she said.

F.C. Trees specializes in growing premium quality, fresh cut Christmas trees and building long term relationships with their clients. Their goal is to develop trust and confidence with independent retailers and non-profit organizations whose needs require consistent quality fresh cut Christmas trees and wreaths year after year. They also pride themselves in working closely with adult and teen challenge to staff their tree lot when available.

At the Pleasanton Tree Lot, they'll have freshly harvested Christmas trees ranging from sizes of 2' to 15' as well as wreaths, garland, and flocked trees, which are new this year. Delivery available upon request.

The Hepler Family encourages everyone to visit their Pleasanton tree lot and take a first-hand look at the quality of trees they produce. If you are interested in a farm tour or would like additional information, contact them via their website www.fctrees.com or on Facebook: Fresh Cut Christmas Trees. The Tree Lot phone number is 971-322-8501.
