Support Pleasanton schools at PPIE's 10th annual Run for Education

leasanton Partnerships in Education Foundation (PPIE) invites everyone in the community to participate in the 10th Annual Run for Education on Sunday, April 24, 2022 at the Alameda County Fairgrounds.

With a carnival-like atmosphere and a variety of course lengths, there is something for every-one. This signature community event is a great way to join 3,000 fellow walkers and runners in our local community and raise funds that help support

all Pleasanton schools. To ensure safety, PPIE will follow California State and Alameda County health guidelines at the time of the event. They will encourage people to maintain social distancing

and wear a mask at this outdoor event.

By joining PPIE's Run for Education 2022, you are supporting our 15 public schools, 14,500 students and over 9,000 school families with supplemental

staff (support counselors, reading/math specialists, librarians and school tech specialists), STEAM grants and innovative programs to

engage students with leading businesses in the area. In its 10 years, the run has raised over \$1.5 million to support our students.

Schools are currently forming teams, be sure to wear your school colors and plan to meet up. Recognition goes to the school with the most participation (one elementary, middle, and high school).

Early bird registration ends on March 15, so be sure to sign up before prices increase. PPIE also offers great, high-visibility sponsor packages for local businesses. Interested sponsors should email mail@ppie.org. Be sure to check out ppierun.com to sign up and learn more.

Nancy Morehead provides Beautycounter products that are trustworthy and safe for your skin.

Should you make a clean sweep of your personal skin care products?

Te all want to be safe and healthy. With my Irish heritage, and 55+ years of less than stellar skin care, I have a lot of damage to my skin," said Nancy Morehead. "With all of that history, my skin is healthier now, in my 60s, than it has ever been due to Beautycounter products."

Morehead has always been interested in health, including exercise, nutrition, and environmental health. She found out about Beautycounter from a triathlon teammate and became a customer in 2015. "I had no idea how little is regulated in the United States skin care industry," she said. "I just assumed that our government was protecting the consumer and was very disappointed to find out otherwise."

Beautycounter, a California company, launched in 2013 and Morehead has been an independent consultant since 2018. "When my granddaughter was born, my daughter and I decided to make a clean sweep of our skin care products and transition everything to Beautycounter products because we felt we could trust the company," said Morehead. Since the switch, they have been extremely happy with the products and the peace of mind using them on everyone in the family including the grandchildren.

Morehead offers safer skin care and beauty products including four full lines of face care (something for every skin concern), a robust line of safer makeup with responsibly sourced ingredients and a complete line of body essential products such as sham-

poo, conditioner, and lotions.

Beautycounter has identified over 1,800 ingredients that are harmful or potentially harmful that will never be used in Beautycounter products. It is called the never list. This is significant because the skin care and beauty industries are virtually unregulated in the United States. Only 30 harmful or potentially harmful ingredients are banned. Canada has banned 600 and the EU 1,400. Beautycounter goes above and beyond to self-limit the ingredients used for cleaner products for you and your family. Your skin is your largest organ and everything you put on it is absorbed directly into your body.

"My favorite thing about the business is that we provide trust-worthy, high-performing products. Beautycounter does the work so that our clients can feel secure in knowing our products do not contain harmful ingredients, are responsibly sourced, and from a company that is fighting to change the laws that control what can and cannot be used in products."
