Ribbon Cuttings

Creating new jobs, stronger economy

Water, wastewater, recycled water

Dublin San Ramon Services District — Dublin San Ramon Services District celebrated the grand reopening of their remodeled space, as they are finally back in their office which was flooded in late 2018. Their return was further delayed by COVID. Visit their new marine life mural or amble through their renovated Demonstration Garden and enjoy the beauty of drought tolerant plants. DSRSD protects public health and the environment by providing reliable and sustainable water, recycled water and wastewater services in a safe, efficient and fiscally responsible manner.
