

GOVERNMENTAL AFFAIRS

A Program of the Shawnee Chamber of Commerce

Shawnee Chamber of Commerce 2021 State Legislative Agenda

Pandemic Relief & Recovery

In response to the COVID-19 pandemic, the Chamber supports consideration of state policies that help businesses stay open, pay employees, avoid additional layoffs, and assist with the recovery of the state's economy including:

- Working with elected officials to access stimulus incentives;
- Facilitating adequate capital;
- Providing tax forgiveness;
- Extending business liability protections;
- Eliminating fraudulent unemployment insurance payments and equitably replenishing the Kansas Employment Security Trust Fund;
- Reducing regulations; and
- Expanding access to technology.

Public Education & Workforce Development

Education excellence is one of the most important factors to stimulate economic prosperity and growth in the state of Kansas. The Shawnee Chamber will continue to support the following initiatives:

- Support a public-school finance formula that is financially sustainable with greater local funding flexibility to support educational excellence and meets community growth.
- Redistribution of state funding to provide increased support for those districts that have unfunded excess special education costs.
- Provide sufficient funding for higher education to keep Kansas institutions competitive and

fiscally sound and able to support infrastructure and buildings for the regent's universities.

- Education and workforce development fostering a well-trained, productive, globally competitive workforce with an increased emphasis on Pre-K-12 students' career success and workforce readiness. Increased funding for skilled trade schools and technical training.

Business & Economic Development

To continue to facilitate a strong and diverse economy, the Shawnee Chamber supports business and economic development legislation that promotes greater stability for the business climate and creates certainty for job growth and business expansion.

- Support the continued development of initiatives aimed at increasing entrepreneurial ventures and incentives for small businesses including assistance in job creation.
- Support legislation that provides discretionary authority to state and local economic development agencies in utilizing economic incentive tools.
- Support reducing administrative burdens for small businesses applying for state and local economic development incentives and tax credits.
- Support limitations on non-economic damages or other litigation reforms necessary to maintain or lower the costs of doing business in the state.
- Support the utilization of the sales tax exemption on capital investments.
- Restoration of measures to strengthen the Department of Commerce and enhance the state's ability to compete in the global economy and facilitate job growth, including the adoption of a long-term economic growth strategic plan.
- Support initiatives that promote more effective workforce development and remove barriers for career and workforce training exploration.
- Support investment to modernize the infrastructure of the Kansas Employer Security Trust Fund with appropriate employer and claimant input and oversight.

Tax Policy

We believe the State government should provide a reasonable and balanced tax policy that maintains adequate funding levels for state and local government while protecting the interests of our business members.

- Oppose implementation of new sales tax on services not currently taxed.
- Preserve tax exemptions on nonprofit organizations.
- Pursue legislative changes to allow collection of applicable local and state sales tax on internet sales, including leveling the playing field with remote sellers and third-party marketplace administrators doing business in Kansas.
- Support the protection of dedicated funds flowing to the local level of government.
- Support appraisals based on fair-market value as currently defined in Kansas statute and oppose caps in property valuations as unconstitutional and inequitable.

Health Care

A health care system that is accessible and affordable for both employers and individuals is critical for the State's competitiveness in recruiting both business and talent.

- Address the cost shifts of uninsured Kansans being passed on to businesses and other consumers by supporting health care solutions that improve the quality and efficiency of the KanCare/Medicaid system while expanding coverage available through state and federal funding which is fiscally responsible.
- Oppose health insurance mandates which unnecessarily increase the costs of health insurance.
- Support healthcare reforms and innovative incentives that enhance the employer-based health insurance delivery systems such as Association Health Plans.

Oppose Tax or Spending Lids on State/Local Governments

Funding discretion and flexibility are key components of effective local fiscal management, and local officials are best situated to respond to growth or decline in a timely manner and make necessary investments in the future of their communities. We strongly oppose any state-imposed limits on taxing and spending authority of local government and urge the repeal of the property tax lid legislation passed during the 2015 legislative session.

- Support locally elected officials to make budget and tax decisions that are most reflective of the community's need, financial interests and more responsive to the local taxpayers.
- Absent repeal, the state-imposed tax lid on local governments should be modified to require public vote based on a protest petition provision.

Transportation

The Chamber recognizes the importance of basic infrastructure to economic health, job growth, public safety and overall quality of life.

- Support full funding of the Eisenhower multi-modal transportation plan.
- Supports the preservation of direct revenue transfers to the State Highway Fund and opposes the diversion of SHF monies and supports preserving current local ratios for any use other than funding for eligible transportation projects for which it was created. The state should consider diverse revenue strategies to support this, while maintaining flexibility, accountability and opportunities for local input and support.

Energy & Environment

The Chamber supports a comprehensive energy policy with a balanced and diversified portfolio of energy sources and technologies.

- Supports long-term energy plans that ensure ample power and reliability for the region, balancing environmental and cost benefits, without shifting costs between customers.
- Supports policies that promote cost-effective investment in energy efficiency, sustainability, transmission and distribution and voluntary use of alternative and renewable fuels and energy resources.
- Supports regulatory models and policies that promote the region's history of affordable and reliable energy.

Shawnee Chamber of Commerce 2021 Standing Positions

The Chamber's standing positions, which may or may not come up during any given legislative session, are as follows (positions are not presented in priority order):

SUPPORT THE FOLLOWING:

- ✓ Maintaining diverse, flexible, predictable, and competitive state economic development tools that can address a variety of job and investment opportunities and needs.
- ✓ Current State of Kansas status as a right-to-work state

- ✓ Immigration is a federal issue; thus, we oppose state action that creates additional costly or time-consuming mandates for employers or imposes unreasonable penalties on employers who unintentionally hire or assist undocumented workers.
- ✓ Protection of locally controlled incentive tools (TIF, CID, NRA) for economic growth and development
- ✓ Current laws regarding exemptions to the Kansas Open Records Act, including restricting Open Records Act coverage to only governmental agencies
- ✓ Efforts that adequately fund the marketing and promotion of tourism in the state
- ✓ Maintain existing, non-partisan and non-election process for the selection of high- quality judges

OPPOSE THE FOLLOWING:

- ✓ Changes to the current sales tax situs law on motor vehicles
- ✓ Binding arbitration in employment disputes
- ✓ Policies which may be perceived to make Kansas unwelcoming to all visitors

Developed by the 2020 Governmental Affairs Committee of the Shawnee Chamber of Commerce and approved by the Board of Directors on December 9, 2020
