

Fairview Range has asked us to share important and time sensitive information with our member businesses. A number of area business' employees have been presenting at the Fairview Range Emergency Department (ED) stating their employer has directed them here to receive a work release if they are feeling ill. If an employee thinks they may have been exposed to COVID-19, they should not immediately enter the ER. Visit www.oncare.org or call 218-362-6682 before you go in for testing or treatment.

A [memorandum](#) from Fairview Range and [informational flyer](#) are attached for your review. If you have any follow-up questions, please contact

A large, bright yellow sign with black text and graphics. At the top, the word "STOP!" is written in a very large, bold, sans-serif font, flanked by two thick horizontal black bars. Below this, the text reads: "If you need emergency care, please proceed to the Emergency Department." followed by a horizontal line. Then: "If you think you have been exposed to Coronavirus (COVID-19) including known contact with someone who has tested positive for COVID-19, OR if you have a fever or cough, please DO NOT enter the facility." followed by another horizontal line. Then: "Return to your vehicle or home and login to OnCare.org or call 218-362-6682 for help." followed by another horizontal line. Finally: "If you do NOT have symptoms, and you have a regularly scheduled appointment, proceed to check in." In the bottom right corner, there is a circular seal with the text "COVID-19 Incident Command Center APPROVED" around the perimeter and "APPROVED" in the center.
