

Mobile Air

Portable Air Purifier & Surface Disinfection

ActivePure® Covid-19 Kill Rates

Airborne 99.96% in 3 Minutes*
Surface 99.98% in 7 Hours*

MEDICAL GRADE TECHNOLOGY FOR EVERY DAY PROTECTION

ActivePure® Mobile Air utilizes FDA cleared, award winning ActivePure Technology to provide ongoing air purification and surface decontamination while indoor space is occupied. Portable and designed to protect indoor spaces up to 250 sf.

BENEFITS

- Destroys Over 99.9% of Airborne and Surface Viruses, Bacteria, Mold/Fungi, Smoke, Odors, VOC's and Allergens
- 100% Safe for Humans, Animals and Plants
- For Use While Space is Occupied 24x7
- Prevents Mold & Bacterial Growth
- Provides Peace of Mind

FEATURES

- Exclusive combination of patented ActivePure® molecular technology and ionization for faster performance
- Utilizes UV-C light to create oxidizing molecules that quickly destroy air and surface pathogens on contact
- Includes AC power supply & car auxiliary port adapter
- Includes power adapter for EU, AU, NZ, ASIA, SA, CHINA, UK, IRL, SIN
- Produces No Harmful Ozone or VOCs

*ActivePure® Technology Has Been Clinically Proven to Kill Live Airborne & Surface Covid-19 (SARS-CoV-2) in Independent FDA Compliant Lab with FDA Compliant Protocols and controls.

PROTECTION ON THE GO!

- ✓ Protects Up to 250 sf
- ✓ Protects Cars, SUVs, Vans & Trucks
- ✓ Prevents Mold & Bacterial Growth
- ✓ Perfect for RVs, Hotel Rooms, & Small Indoor Spaces
- ✓ Fits in Backpack or Purse!

ACTIVEPURE MOBILE AIR	Air Purifier & Surface Decontaminator
Technology	ActivePure Technology Ion Generation
Recommended Treatment Space	Up to 250 sf
Power Requirement	12VDC or 110-240 VAC 50/60Hz, with adapter
Power Consumption	Maximum 10.7 watts
Electrical	Input Voltage: 120V AC; 60 Hz
Fuse	2 amp buss type (12 VDC adapter only)
Operating Temperature	45°F – 100°F (7°C – 38°C)
Dimensions	3.625" x 6" x 1.0" (9.21cm x 15.25cm x 2.54cm) w/o base
Weight	8 oz (.23 kg)
Warranty	1 Year
