

Creativity

In this challenge, learners build essential skills as they complete the challenge.

Challenge:

Using art to explore different occupations in Doncaster

Learning aim:

To learn about different occupations and use a selected piece of equipment, tool or work item to create a piece of art that reflects a particular job role.

Learning outcomes:

- Be able to identify different job roles and the tools or equipment needed to do that job.
- Be able to create a piece of art using a selected tool or piece of equipment.

'Creativity' is:

"the use of imagination and the generation of new ideas."

Why is this skill important?

Showing great creativity skills is really important as it helps you use your imagination, express your ideas and use tools to help you be even more creative.

Differentiation from the initial step 0 to the final step 15.

Success criteria:

Did the learner?

- Explore different occupations, to include what they do, who they help, what they wear (can be sensory exploring).
- Show what the different jobs involve and what tools or equipment they use. e.g. Hairdresser: hair brush, scissors, Dentist: toothbrush, dental floss.
- Select a tool or piece of equipment e.g. hairbrush, toothbrush that is used in a particular job role.
- Create a piece of art using the selected tool or equipment.
