"Derby 147"

Absolutely stunning photography from beginning to end. It's clear you took your time and looked for the most stunning shots you could capture and it shows. Very well done.

Second Place
Spectrum News Kentucky
Lachlan McLean and Jonathon Gregg
"Super Seniors"

This is such an interesting story and approach. Great images, great natural sound, and incredible action shots. You could have used some more shot variety to really bring it home but a great effort all around. Great job!

Third Place
WHAS-TV
Alyssa Newton
"Celebrating Lamar Jackson"

With hoots like this it's tough to make your piece stand out when you're not allowed to use a tripod and you are kind of stuck sharing interviews and limited to where you can be. Great job overcoming those burdens! Good use of natural sound too.

News Videography

First Place
WLKY-TV
Scott Eckhardt
"My Miracle Man"

This piece took time and effort and it absolutely paid off. You could take a single frame from almost every shot in this piece, print it out, and be proud to hang it on a wall. Really well done.

Second Place
WHAS-TV
Phillip Murrell
"Bogus Bourbon"

This piece put on an absolute clinic on natural sound, lighting, editing, sequencing, and using a variety of tools to bring the story home. Almost every shot is a close-up. However, it's hard to complain when every close-up looked so great.

Third Place
WDRB-TV
Dominik Fuhrmann
"The Flower Bandit"

Loved the sequencing on the top of the story - - mastered the use of depth of field to help keep the subject's identity a secret. Great work!

John Boel and Jeff Knight
"Mentally Ill on The Street"

Riveting, courageous, and mature reporting on a topic our industry often bungles. Not this time. Bravo to this team for not only telling this story in a creative and respectful manner but also doing so in a gritty and creative way. Top notch journalism here.

Second Place

WHAS-TV

Fantastic photography, editing, and storytelling.

News Special/Documentary

First Place

WDRB-TV

"Louisville in Crisis"

This was an extremely engaging special. It had everything - storytelling, well done graphics to explain an issue, visuals, edited in a way that kept the viewer wanting more. Each story told gave perspective into what was a real issue for the Louisville community.

Second Place

WHAS-TV

Rob Harris, Jake Cannon and Kirin Pandit
"Kentuckiana Curiosity"

This was a really unique approach to interesting topics.

Third Place
WLKY-TV

"My Miracle Man"

Special Series

First Place
WHAS-TV
John Charlton
"Distracted Driving"

Really liked how this piece started with a man who almost lost his life in a distracted driving crash and how the man went back to the scene of the crash. That was powerful! The report that followed with how the law currently is versus how a house bill could change the law was important because it explained how the viewer could be impacted. This was award-winning because the reporter held the bill sponsor accountable for her actions. This special series is a fantastic example of quality storytelling and journalism.

Second Place
WAVE-TV
John Boel, Jeff Knight and Doug Druschke
"Surrendering the War on Drugs"

This special series is a strong piece of journalism. The reporter went in depth to get all sides of the story – a family impacted, the detectives investigating, and the suspected drug dealers. The additional fact-finding with the statistics on drug arrests and identifying the criminal history of the person the car was registered to supports the witness interview. This special series had excellent follow up questions that continued a great story.

Third Place
WHAS-TV
Heather Fountaine and Nick
Goldring
"Risks of the River"

This was a very emotional and informative special series. Liked how the reporter told a family's story of loss and exposed very common mistakes people might make that could cost them their lives. This story brought attention to the dangerous river and was good journalism because it exposed the signage problem and brought it to the attention of engineers to get it fixed. The second part of the series had good information and explanation of how divers work and the technology used in the search and rescue efforts.

Investigative Reporting

First Place
WDRB-TV
"KSP Body Cameras"

While watching this report a person can't look away for a moment. All the video was so shocking. Delighted to find that the digital reporting complements the TV reporting and provides unique content for the viewer/user. Solid reporting that exposes a real problem going on across the state, how other states handle this, and what leaders are trying to do about it. The interview with the victim of the car accident bookending the story breaks your heart, but keeps you hooked. The production value was also high quality.

Second Place
WDRB-TV
Gilbert Corsey, Darius Bowie and
Emily Evans
"What Happened to Ta'Neasha
Chappell"

It can be so difficult to get answers about things that happen in prisons and jails, but this team did not give up. They knocked down every door and traveled every avenue to get answers for that family and expose what really happened to that woman. This story looked very professional and made a lot more people care about what we don't see behind bars.

Third Place
WKYT-TV
Kristen Kennedy and Barton Bill
"Kentucky's Unemployment
System Meltdown"

Highlighting an issue that is actually
impacting a lot of real people -- that's so
important. You exposed how wide-reaching it
is and helped get answers from those in
charge. Nice work.

The way the majority of this composite told a story with just edits and little-to-no track makes this award-winning. When an editor can tell a story with the way shots are timed perfectly to music and cut in order, it's beautiful. Loved the quick clips that were timed to the chimes in the beginning and how the next round of edits showed lights turning on as the music speed picked up. The natural sound of the rooster crowing and the announcer saying the racetrack is now open mixed with the time lapse video really set the scene of the story. The skate scenes reflected the same – great mix of close-up shots of the disco ball, the skates, and the wide-angle shots of the rink to go with the background music and energy of the piece. Everything was cut and timed to perfection!

Second Place
WDRB-TV
Emily Evans

The butted soundbites at the start of this composite were very strong, quick, and attention-grabbing. The edits with the still photos and videos with the overlays with the chain link fence, the barbed wire, and the shutter clicks were powerful. Also liked the highlights on the referenced medical records - it helped keep the viewer's attention and provides a good visual. This helps the viewer absorb a lot of detail in a short time. The dark filters on the dating story and slow motion helped set the mood for the negative impact of COVID-19 on people looking for companions.

Third Place
WLEX-TV
Dave Medley

Really liked the music selection and how the words on the screen were edited to match the intensity of the tune. The editor selected strong soundbites from tornado victims and officials. The sports cuts were quick. The speed matched the game shots were very enjoyable.

Daytime Newscast

First Place
WLKY-TV

With multiple reporters on the ground and in the air, WLKY gave viewers a comprehensive view of a major disaster. Strong anchoring, dynamic live shots and effective production delivered compelling content.

Second Place
WKYT-TV

WKYT's anchor team was confident and conversational. The station's snow coverage was extensive, with good follow-up on breaking news. And the newscast that followed devastating tornadoes included impressive images and comprehensive coverage.

Third Place
WDRB-TV
Cara Catlett and Erin Pryor

WDRB produced solid newscasts with major developments on multiple fronts. Highlights included strong photography, effective use of graphics and capable reporting.

Evening Newscast

First Place
WHAS-TV
Megan Short

WHAS promised late-breaking and comprehensive coverage in the wake of devastating tornadoes and the station delivered, with strong reporting, clear graphics and heartfelt sound from people who were affected. The entry also included compelling content following a tragic example of gun violence. The coverage of vigils, AND related issues, elevated the story beyond typical spot news or event reporting.

Second Place
WLKY-TV

WLKY's response to the tornadoes showed its commitment to the communities it covers, with comprehensive coverage from multiple crews, and impressive fundraising to benefit the victims of the disaster. Producers made good use of their toolbox, delivering aerial video, compelling personal stories, important weather updates and live coverage of events that were happening during the newscast.

Third Place
WDRB-TV
Rod Hissong

WDRB found eloquence in the simple words of people who were affected by the tornadoes. The station's photographers also delivered impressive images that conveyed the dimensions of the disaster. Coverage of the Breonna Taylor anniversary provided valuable perspective along with breaking news.

Overall Excellence
