

# Build a Skilled IT Workforce with a Registered Apprenticeship

The Eastern Shore Chamber of Commerce and Coastal Alabama Community College have partnered to offer a Registered IT Apprenticeship.

The focus of the program is to provide innovative pathways to high demand industries in and around Baldwin County.

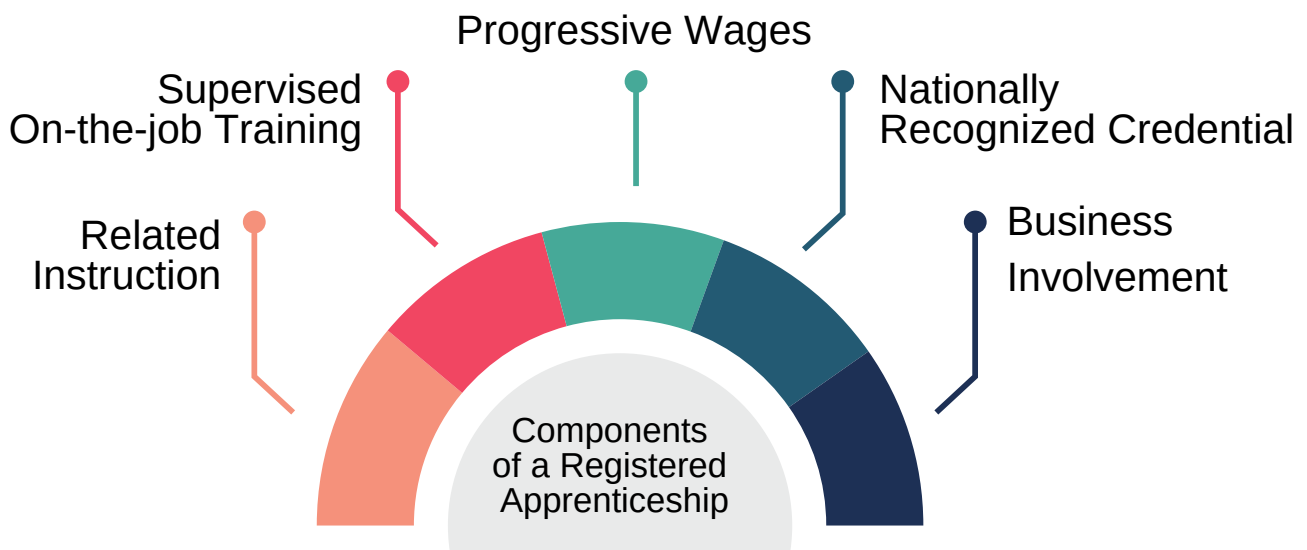

It will serve as a conduit for interested students to enter the Information Technology Industry.

Apprenticeships are an established practice for developing talent, combining classroom instruction and on-the-job training under the supervision of an industry professional.

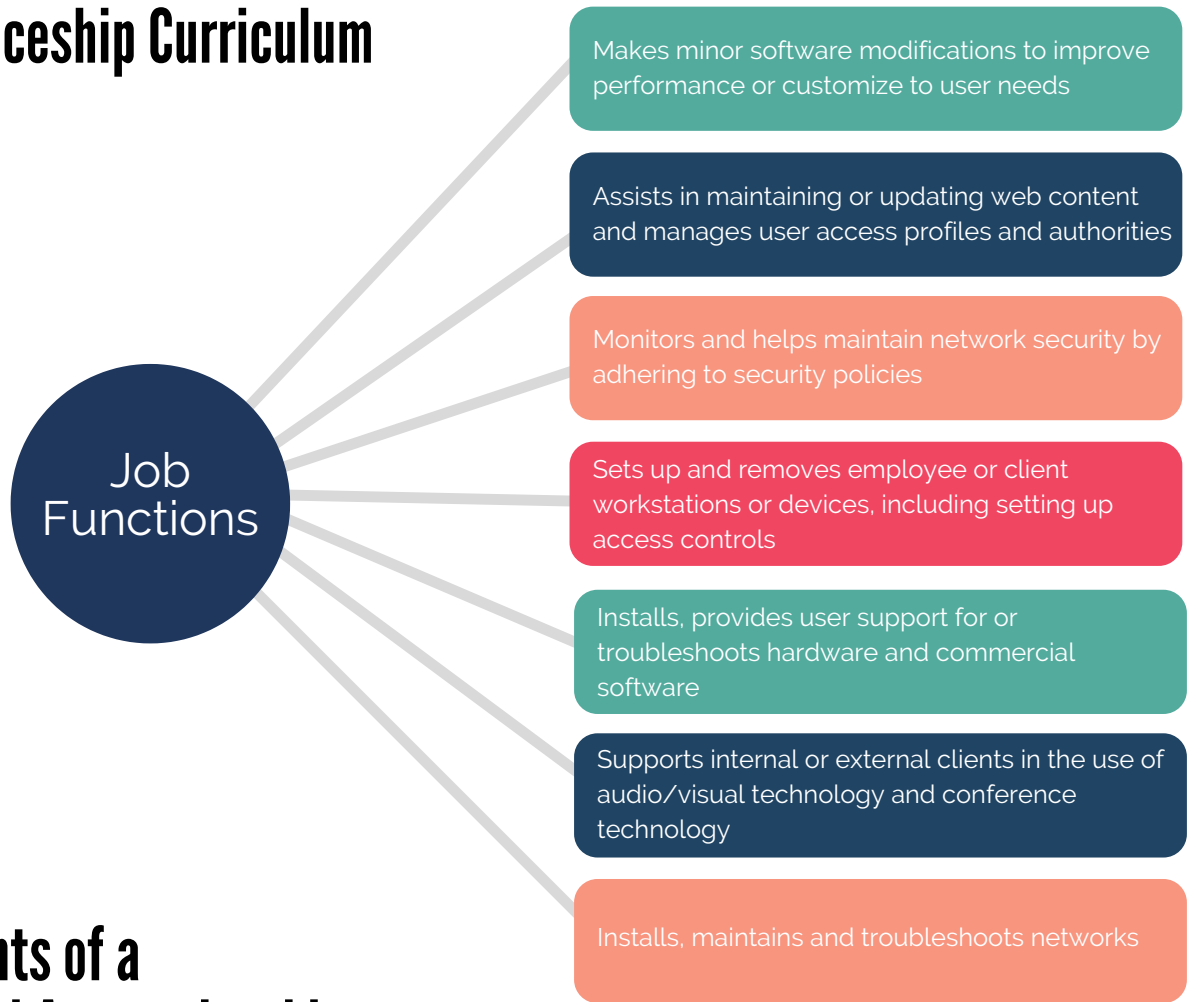

## Benefits to Employers

- Opportunity for a high return on investment as organization can fill company's skill gap with in-house trained talent
- Attracts a broader range of candidates and diversifies the workforce
- Provides leadership opportunity to current employees, increasing their engagement with company as they mentor and manage apprentices
- Improve overall company performance and provide a competitive advantage over other firms

## Components of a Registered Apprenticeship

# IT Apprenticeship Curriculum
