NEIGHBOUR M E D I A

a modern local media company, connecting communities

Neighbour Paper

People still love paper – and so do we!
There is something about a printed publication that is just irreplaceable in terms of media platforms. We use more of our senses to experience it.

Every month we distribute 5000 copies of publication throughout each of our local communities. These editions are filled with relative community content, charity features, business spotlights and upcoming events.

Neighbour Social

People spend time on their phones and on these social media platforms throughout their everyday life and there is an incredible amount of opportunity that comes with that!

Neighbour Media focuses on producing content that adds value to the residents of our communities. Positive moments, feel good stories, business spotlights, local news and events with engaging content like polls, Q & A's and giveaways.

Work With Us

We are hyperlocal and all about spreading positivity in the communities we live, work and play in. Supporting local and connecting neighbours are among our top priorities, and our team of media experts are driven by their passion for helping communities thrive through consistent messaging on our platforms (print and social media).
