

Advertise in the Vascular Biology Publications Alert

The NAVBO Vascular Biology Publications Alert (VBPA) is a monthly electronic publication sent to over 900 vascular biologists. NAVBO offers many ways to reach this target audience. See all the options below (all include a hyperlink to your website).

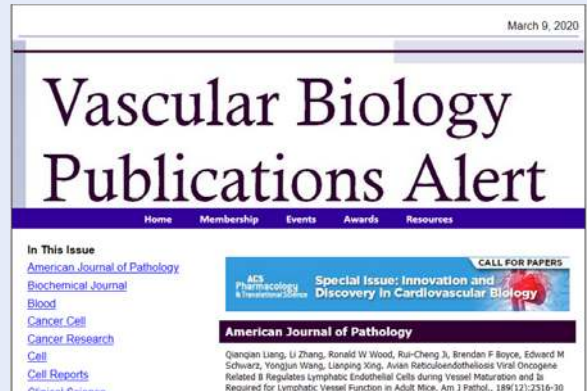

Leaderboard –

above the VBPA Masthead
\$250 a month (\$225 each for additional months)

Member Submissions

Journals Covered:
American Journal of Pathology¹
Biochemical Journal²
Blood²
Cancer Cell³
Cancer Research²
Cell⁴
Cell Reports^{5*}
Clinical Science²
Development²
Developmental Biology²
Developmental Cell⁶
Developmental Dynamics¹
EMBO²
EMBO Reports¹
FASEB Journal¹
Genes and Development²
Journal of Biological Chemistry²
Journal of Cell Biology²
Journal of Cell Science²
Journal of Clinical Investigation¹

Cell Reports
Vijay Avin Balaji Ragnathrao, Mumtaz Anwar, Zahid Akhtar, Alejandra Chavez, Yu Mao, Vivavanathan Natarajan, Sribalaji Lakshminarayanan, Magdalena Chrzostowska-Wodnicka, Arkadiusz Z Dudek, Lena Claesson-Welsh, Jan K. Kitzjewski, Kishore K. Wary, Arar B. Malik, Dolly Mehta. Sphingosine-1-Phosphate Receptor 1 Activity Promotes Tumor Growth by Amplifying VEGF-VEGFR2 Angiogenic Signaling. Cell Reports, 29(11):3472-3487.e4

Clinical Science
T.P. Ludvigsen, L.H. Olson, H.D. Pedersen, B.D. Christoffersen, L.J. Jensen. Hyperglycemic-induced transcriptional regulation of ROCK1 and TGM2 expression is involved in small artery remodeling in obese diabetic Göttingen Minipigs. Clinical Science, 133(C4): 2499-2516

Developmental Dynamics
Guo-Ching Sun, Tzyy-Yue Wong, Hsin-Kung Chen, Chiu-Yi Ho, Tung-Chen Yen, Wen-Yu Ho, Ching-Juan Tseng, Pei-Wen Cheng. Angiotensin II inhibits DD411- α 1 β signaling via AT1R and p38 β dimerization to modulate blood pressure control in the central nervous system. Clin Sci (Lond), 133(23):2451-13

Journal of Biological Chemistry
Chayodom Maneechote, Sirinpong Palee, Nattayaporn Apajais, Sasivan Kerdphoo, Thiradart Javongkam, Sirinpong C Chattapalorn, Nipon Chattapalorn. Mitochondrial dynamic modulation exerts cardiometabolic protection in obese insulin-resistant rats. Clin Sci (Lond), 133(24):2424-47

Product Showcase –

\$175 per month (\$155 each for additional months)

Introducing ACS Pharmacology & Translational Science
ACS Pharmacology & Translational Science is a new journal from the American Chemical Society publishing high-quality, innovative research across the broad spectrum of biological sciences.
Read Volume 2, Issue 1, free courtesy of ACS Publications.
And don't miss NAVBO member Professor Nathaniel M. Gitlin's latest work in our Articles ASAP!

Genes & Development
Hepato-megakaryocytic myeloid progenitor cells promote thrombopoiesis and myelopoiesis in a mouse model of vascular cognitive impairment and dementia. FASEB J., 33(12):13380-13393

Journal of Biological Chemistry
Shenjie Li, Smith FM, Kozman OJ. The soluble carriers ZP9 and ZP14 regulate manganese accumulation in brain microvascular endothelial cells and control brain manganese levels. J Biol Chem., 294(56):19197-19208
