It's been quite a year!!! Looking back over the last 12 months, we have been through a lot. First there was major lockdown of the entire state. Just a few things were left open at a very limited capacity. Those were medical facilities, grocery stores, hardware stores, lumber yards and major commercial construction to name a few. During this first period, BIAW with the help of all the locals worked very hard to get residential construction designated an "essential" function so our members could go back to work with restrictions – but back to work. We succeeded in getting this to happen but then we had the problem of permitting not being available for the members to submit new permit applications – and so on. We finally got that partially opened up as well and we still are operating in an environment where services are being conducted on a limited basis – but at least they are being conducted.

We have bounced between different phases of re-opening in our area with the first being by county. Now we are in "regions" for the phased reopening of the state. Hopefully this will work and sometime later this year we will see a little more normalcy in our day to day operations.

Overall, we all have been successful. We have managed to keep our businesses moving along. Some better than others but in the big scheme of things we have to say that we have been successful albeit not as successful as we would have been if the pandemic hadn't happened. It definitely wreaked havoc on the entire country. Some areas more than others.

This whole thing doesn't go without some grief brought on by the pandemic. We have lost loved ones or have known someone who had COVID and really struggled to pull through. Our thoughts and sympathies go out to those who did suffer losses of loved ones and to those who fought off the disease and are struggling with the after effects. At least now we have vaccines available for everyone to get when their time comes around. Patience is key here and keeping doing the things we need to in order to be safe are paramount in our getting through this phase of the pandemic and on the road to full recovery of our society. Luckily I fall in the group that has been able to get the COVID vaccine and I have had the full vaccination series. I am still doing the things I was doing before getting the vaccinations and will do so for the foreseen future just to keep myself safe and those around me safe as well. After all, I don't want to contract the disease either.

Would I like to see the state and the country completely open today? Absolutely YES!! That being said, we will get there in the next number of months but I'm thinking many will still want to be extra cautious in public for some time. This is understandable. And, it is also realistic. Do I like wearing a mask? NO – but that is what I will do in order to be sure I do my part to prevent the spread of the the disease.

All of this being said, I think we have a bright future on the horizon. I look forward to our country getting back to work and being productive in the future. I do feel it will be quite sometime before we are back to where we were prior to the pandemic. The national debt continues to increase and we all will have to pay for that. One way or another, all of us will contribute to paying off what has been spent by our government on this pandemic whether we agree with it or not.

I'm not sure where we will go from here but I do hope our lawmakers will see the need to support the industry and allow us to do our jobs without any further regulatory hurdles until we actually are in a better place financially. Will this happen? Unless cooler heads prevail, it won't. Our industry continues to be hammered with more regulation and increased costs for services and materials on just about a daily rate. How do we correct this? We all need to start supporting candidates that support our industry – regardless of party. That is how we just might be able to "right the ship" as they say.....

Please note all the thoughts above are mine and do not reflect the overall position of SICBA except for the support of candidates and officials that support our industry.

Wayne

INSTRUCTIONS FOR SUBMITTING PROJECT OF THE YEAR ENTRIES.

To: Project of the Year Applicants

In an effort to standardize entries for Project of the Year, the following has been adopted to help make entries for this award easier for our members and for the judging panel to choose the winner in each group.

SICBA will provide you with a folder to be utilized for your entry into the Project of the Year competition. It is made up of 4 inner pages available for your use. Should you choose not to use this folder, please provide your own set up in the same manner.

On the inside cover: This page is for your application as attached.

Page 2: Glue the photographs of your project on this page. These photos may also be enclosed in document protectors and attached to the proper page if you desire.

Page 3: More photographs, plot plan, floor plan or other pertinent material.

Page 4: Your narrative of the project from start to finish. This can be more than one page and is your chance to “sell” your project.

You may send more information than what is listed above but please keep in mind that what is listed is what will be looked at the most for selection by the panel.

Do not include any information you will want returned to you. Once your entry has been received at the SICBA office, it becomes the property of SICBA and will not be returned to you. The only exception would be any additional information you might choose to provide for the competition. In this case, it will be your responsibility to pick this up after the awards are given to the winners in May.

All entries are sent to another builders association in the state for adjudication. This rotates through the other 14 associations annually and is not disclosed until after the selections are made.

Throughout the COVID-19 crisis, SICBA and our associated organizations BIAW and NAHB have been hard at work to get our industry back to work and to keep it moving forward positively. We have made every effort to keep you informed on the impact of the crisis on your business as well as new opportunities for you to utilize to successfully survive the pandemic.

The strength of numbers your membership gives SICBA and BIAW shows the state that together we represent some 8000 member businesses across Washington and a significant part of the state's economy. SICBA will continue to work to provide our members the opportunity to continue to work safely. Especially during the rest of the pandemic. And while our office is closed, our staff is still here as a resource for you.

Your continued support is what has made our work for you possible during a crisis unprecedented in our lifetimes. We remain committed to the health and economic well-being of our members at all times and if there is anything we can do to assist you in reaching a goal that got sidetracked during this time, please let us know.

Thank you for your membership and continued support.
