

Member Discount Program

Designed for SICBA member companies in the construction trades, the **Verizon Wireless** discount program affords eligible member businesses a significant discount on their wireless services. For your company to qualify for this program, 90% or more of your company's revenue must be obtained through one of the categories listed below. You must have one corporate line and 4 additional lines (employee, family, etc.). In addition, once enrolled, the program extends a similar discount to your employees' personal phones. Discount not available on unlimited calling plans.
