President's Message

Well it is that beautiful time of year where the leaves change from green to gold, orange and red. Thanksgiving is just around the corner and the farming community is working hard to harvest the crops in preparation for old man winter's return. Now I realize that not everyone looks forward to the winter months ahead, but I am certain that there must be a great number of people that will be looking forward to putting 2020 in the rear view mirror.

With that being said, there are also some unique or positive opportunities as a result of continued social distancing. For one, it is now possible for members and associates to attend multiple chapter meetings through Zoom. There are five Chapter meetings slated for this month and we are all able to join in on the virtual events via our computers. I would strongly encourage all of you to go online and meet some of the folks that you normally don't get many opportunities to share with. As a reminder, all of the upcoming Chapter meetings and events including training courses, are posted on our website. We are certainly looking forward to renewing our networking relationships with our members and associates in the weeks to come.

We kicked off our fall sessions with a Provincial Board meeting on September 25th. There were a great number of topics and initiatives discussed including a revisit and refreshing of ECAA's Values, Initiatives, Services and overall Mission as we look to expand and grow and evolve with the ever changing climate and challenges that our industry is facing. There will be many great updates to share in the coming weeks and months and we will be looking forward to your input and feedback as we journey to the next level.

Thank you again to everyone for your resilience and tenacity as we continue to work through all of the challenges that we have had to face in 2020. It is a true testament of our continued spirit to not only survive, but to move forward with new ideas and the desire to do things better than ever before, turning obstacles into new opportunities.

Please enjoy your Thanksgiving and let's be sure to help those around us who are less fortunate.

Respectfully,

Tim Brundage
ECAA Provincial President

Missed ECAA's Training Day Part 2. Contact [the office](#) directly as these [presentations](#) are available after registration. Cost \$50 per person; APD points apply for PEC's.

Congratulations to [Federated Insurance](#) as they celebrate 100 years serving Canadian businesses.

COAA Annual General Meeting & Presentations. October 14th, 2020 9:30 am - 11:30 am via zoom. To register and for more information [click here](#).

The Alberta Government has released **Infrastructure Technical Resources Newsletter**. Latest issue "Technical Design Requirements for Alberta Infrastructure Facilities" v6, September 2020 is posted [here](#).

The Canadian Apprenticeship Forum (CAF-FCA) is pleased to present, a first-ever, [National Strategy for Supporting Women in Trades](#). In 2019, CAF-FCA assembled a member task force of 60 skilled trades stakeholders to inform a strategy that will create measurable change for women's representation in skilled trades careers. This industry driven initiative has four clear and measurable action items intended to generate awareness, trigger policy change, recognize best practices and create skilled trade workplace environments where women's representation increases. HUB International is here to help. Mental health is essential for employee well-being, and with construction having the highest suicide rates among industries, it is more apparent than ever that construction employers need to take action now to support and improve worker mental health.

HUB has released their webinar on Suicide Prevention, "[Suicide Prevention: Immediate Steps You Can Take to Protect Your Construction Workers](#)" is now available on demand, so you can revisit our discussion and ways you can help workers at your organization.

A dark blue rectangular graphic with a grid of small white dots at the top. The text inside reads: "WEBINAR" in yellow, "Suicide Prevention" in large white font, and "Immediate Steps You Can Take to Protect Your Construction Workers" in smaller white font below it.

Built Green Canada launches Communities Program Pilot. As COVID-19 continues, Built Green Canada launches its [Communities Program pilot](#)—expanding opportunities for developers focused on creating better, healthier homes and communities. The organization is encouraging developers to participate in trials during this phase, and a project is already enrolled, courtesy of [Averton](#), who has decided to develop Midtown in St. Albert as a sustainable community. *This information is being shared on behalf of Built Green Canada.* [Built Green Averton News Release](#).

This information is being shared on behalf of Alberta Energy Efficiency Alliance. "As detailed [here](#), the Canada Infrastructure Bank announced five initiatives to invest in infrastructure to create jobs and economic growth. This is a great near-term outcome of coordinated voices supporting the job-creation, GDP growth, cost savings and climate action benefits of energy efficiency, energy storage and clean tech. Can't wait to see how this accelerates these benefits for Albertans and our businesses, and how we can leverage this and anticipated upcoming provincial economic stimulus initiatives to foster a market-driven, sustained funding mechanism for energy efficiency in Alberta" says Amy Roesler, Executive Director.

What's Available Through Your Associates

Are you thinking of hiring an accounting or tax provider? Do you know what to look for when choosing the right partner for your business? Find out 5 essential questions any small business owner or self-employed contractor should ask when choosing accounting and tax services in FBC's **free eBook**.
